ITEM 7. Independent Public Accountants, External Audit Fees and Services

Sycip, Gorres, Velayo & Company is the external auditor for the current year. The same external auditor will be recommended for re-appointment at the scheduled stockholders' meeting. Representatives of the said firm are expected to be present at the stockholders' meeting and they will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Pursuant to SRC Rule 68, Paragraph 3 (b) (iv) (Rotation of External Auditors), the Company engaged Mr. Ramon D. Dizon of SGV & Co. for the examination of the Company's financial statements from 2008 to 2010. Previously, the Company engaged Ms. Melinda G. Manto and Mr. Joel M. Sebastian of SGV & Co. for the examination of the Company's financial statements from 2006 to 2007 and 2001 to 2005, respectively.

The aggregate fees billed for each of the last two fiscal years for professional services rendered by the external auditor were P1,500,000 and P1,200,000 for 2011 and 2010, respectively. The audit fees for 2012 is estimated to be at P1,500,000. Services rendered include the audit of the financial statements and supplementary schedules for submission to SEC, and assistance in the preparation of annual income tax returns. Also, in 2010, SGV rendered other professional services relating to the bond issuances of SMIC. The professional fees amounted to P9.0 million in 2010 and nil in 2011. There were no other professional services rendered by SGV & Co. during the period. Tax consultancy services are secured from other entities other than the external auditor.

The Audit Committee recommends to the Board of Directors the appointment of the external auditor and the fixing of the audit fees. The Board of Directors and stockholders approve the Audit Committee's recommendation.

D. OTHER MATTERS

ITEM 15. Action with Respect to Reports

The following are to be submitted for approval during the stockholders' meeting:

(a) Minutes of the meeting of stockholders held on April 27, 2011.

The following was the agenda of the said meeting.

- Call to order.
- Certification of notice and quorum.
- Approval of minutes of the special meeting of stockholders held on April 28, 2010.
- Presentation of the President's Report.
- General ratification of the acts of the Board of Directors and the management from the date of the last annual stockholders' meeting up to the date of this meeting.
- Election of directors for 2011 – 2012 (including Independent Directors).
- Appointment of external auditors.
- Adjournment.

(b) General ratification of the acts of the Board of Directors and the management from the date of the last special stockholders' meeting up to the date of this meeting.

These acts are covered by Resolutions of the Board of Directors duly adopted in the normal course of trade or business, like:

I. Issuance of P5.0 billion and P7.0B Fixed Rate Corporate Notes (please see Note 20 (Long-term Debt) of the Notes to the Consolidated Financial Statements);
II. Appointment of bank signatories and amendments thereof.

There are no other matters that would require approval of the stockholders.

ITEM 16. Matters Not Required To Be Submitted

Not applicable.

ITEM 17. Amendment of Charter, By-Laws or Other Documents

Not applicable.

ITEM 18. Other Proposed Action

The following are to be presented for approval during the stockholders' meeting:

(a) Election of directors for 2012 – 2013; and
(b) Appointment of external auditors.

ITEM 19. Voting Procedures

a. Election of Directors

As stated in Section 3 of Article IV of the Company's By-Laws, "At each meeting of the stockholders for the election of directors, at which a quorum is present, the persons receiving the highest number of votes of the stockholders present in person or by proxy and entitled to vote shall be the directors."

Section 24 of The Corporation Code of the Philippines states that "At all elections of directors or trustees, there must be present, either in person or by representative authorized to act by written proxy, the owners of a majority of the outstanding capital stock… entitled to vote".

b. Appointment of External Auditors

As stated in Section 3 of Article VII of the Company's By-Laws, "Auditors shall be designated by the Board of Directors prior to the close of the business in each fiscal year, who shall audit and examine the books of account of the Corporation, and shall certify to the Board of Directors and the shareholders the annual balances of said books which shall be prepared at the close of the said year under the direction of the Treasurer. No director or officer of the corporation, and no firm or corporation of which such officer and director is a member, shall be eligible to discharge the duties of Auditor. The compensation of the auditor shall be fixed by the Board of Directors." The stockholders representing the majority of the subscribed capital stock approves the appointment of external auditors.

Methods by which votes will be counted

All matters subject to vote, except in cases where the law provides otherwise, shall be decided by the plurality vote of stockholders present in person or by proxy and entitled to vote thereat, a quorum being present.

Unless required by law, or demanded by a stockholder present in person or by proxy at any meeting, and entitled to vote thereat, the vote of any question need not be by ballot. On a vote by ballot, each ballot shall be signed by the stockholder voting, or in his name by his proxy if there be such proxy, and shall state the number of shares voted by him.

The external auditor of the Company, SGV & Co., will validate the ballots when voting is done by secret ballot. Likewise, SGV & Co. will count the number of hands raised when voting by show of hands is done.

Consolidated revenues grew by 13.0% to P200.3 billion, as against last year's P177.2 billion. Income from operations increased by 16.2% to P37.4 billion from last year's P32.2 billion. Operating income margin and Net profit margin is at 18.7% and 10.6%, respectively. Net income attributable to equity holders of the Parent for the year ended December 31, 2011 increased by 15.1% to P21.2 billion compared to P18.4 billion of the same period last year.

Retail Sales accounts for 74.0% or P148.2 billion of the total revenues for the year. Consolidated Retail sales grew by 9.3% from P135.6 billion to P148.2 billion for the year ended December 31, 2011 due mainly to the opening of the following new stores in 2011:

	SM Department Stores	***SM Supermarkets / SaveMore Stores***	***SM Hypermarkets***

Excluding the full year sales of Makro, the retail sales growth would be 12.4% from P129.4 billion in 2010 to P145.4 billion in 2011. Of the total retail sales, the non-food group, which is composed of SM Department stores, contributed 42.9% or P63.6 billion, while the food group, composed of SM Supermarkets, SM SaveMore stores, SM Hypermarkets, and Makro outlets, contributed 57.1% or P84.6 billion.

As of December 31, 2011, SM Investments' retail subsidiaries have 169 stores. These consist of 41 department stores, 33 supermarkets, 65 SaveMore stores and 30 hypermarkets.

Real estate sales for the year ended December 31, 2011, derived mainly from condominium projects of SMDC, surged by 64.0% to P17.9 billion. The market continues to show strong acceptance of SM Residences and M Place products, backed by a deeper confidence on SMDC's proven ability to complete its projects, thereby fueling to a large extent SMDC's notable 2011 results. The consistent offerings of high-quality and well-designed residential units built by an experienced team composed of the country's top contractors, engineers, architects, and interior designers also allowed SMDC to gain further traction and brand recognition. SMDC has a total of 17 residential projects as of December 31, 2011. In 2011, SMDC launched Mezza II Residences in Quezon City, Green Residences in Manila, Shell Residences in Pasay City and M Place Ortigas in Pasig City. For the whole of 2011, SMDC pre-sold 11,726 residential condominium units worth approximately P26.3 billion. Compared to the same period in 2010, the number of units pre-sold increased by 14% and exceeded SMDC's sales target of P23.6 billion by 11%.

The other ongoing projects of SMDC are the following: Grass Residences beside SM City North Edsa; Sea Residences near the Mall of Asia Complex in Pasay City; Field Residences in Sucat, Paranaque; Princeton Residences along Aurora Boulevard in Quezon City; Jazz Residences near Jupiter Road in Makati City; Sun Residences right beside the Mabuhay (formerly Welcome) Rotunda near Quezon Avenue; Light Residences near Pioneer Street in

Mandaluyong; Wind Residences along the Emilio Aguinaldo Highway in Tagaytay City; Blue Residences, which is located at Loyola Heights in Quezon City and M Place South Triangle in Panay Avenue, Quezon City. Currently, SMDC has four fully completed projects namely Mezza Residences, a 38-storey four-tower high rise condominium across SM City Sta. Mesa, Quezon City; Chateau Elysee, a mid-rise condominium project in Parañaque City; Berkeley Residences in Katipunan Road, Quezon City; and Lindenwood Residences, a residential subdivision in Muntinlupa City. Further contributions to the growth in real estate sales were provided by the sale of condominium units of Costa del Hamilo and club shares in Pico de Loro.

Rent revenue for the year ended December 31, 2011, derived mainly from mall operations of SM Prime Holdings, Inc. (SM Prime), increased by 14.3% to P20.5 billion in 2011 from P17.9 billion in 2010. SM Prime is the country's leading shopping mall developer and operator which owns 41 malls in the Philippines and four malls in China as of December 31, 2011. The increase in rental revenues is largely due to rentals from new SM Supermalls. In 2010, SM City Tarlac, SM City San Pablo, SM City Calamba and SM City Novaliches were opened. In 2011, SM Masinag was also opened. The new malls added 380,000 square meters (sqm) to total gross floor area. Excluding the new malls and expansions, same store rental growth is at 7.0%.

The four malls in China contributed P2.0 billion in 2011 and P1.4 billion in 2010, or 9.9% and 7.7%, respectively, of SMIC's consolidated rental revenue. The rental revenue of these four malls in China increased by 46.4% in 2011 compared to the same period in 2010 largely due to improvements in the average occupancy rate, lease renewals and the opening of the SM Xiamen Lifestyle and SM Suzhou which added 182,000 sqm of gross floor area. Average occupancy rate for the four malls is now at 95%.

For the year 2011, cinema ticket sales and amusement revenues increased by 11.2% to P4.1 billion in 2011 from P3.7 billion in 2010 largely due to the success of local blockbuster movies shown in 2011 compared to 2010 and higher sponsorship revenues in 2011. Amusement revenues is mainly composed of amusement income from bowling and ice skating operations including the SM Science Discovery Center and the SM Storyland.

Equity in net earnings of associates increased by 17.9% to P6.4 billion in 2011 from P5.4 billion in 2010, primarily due to the increase in the net income of BDO which is attributed to the bank's recurring fee-based income from its service businesses which rose 18%. Amid a volatile external environment, BDO generated a 10% increase in trading and foreign exchange gains. Along with other miscellaneous income, BDO recorded a 17% growth in non-interest income. BDO continues to derive bulk of its operating income from core lending and deposit-taking business and fee-based service activities. Having completed its investment in capacity, BDO is now starting to benefit from scale with operating expenses increasing only moderately by 4% with ongoing initiatives to enhance operational efficiency.

Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives decreased by 55.7% to P0.4 billion in 2011 from P0.9 billion in 2010 primarily due to the gain on sale of various available-for-sale investments of certain subsidiaries in 2010.

Dividend income increased by P0.1 billion or 21.6% in 2011 to P0.4 billion from P0.3 billion in 2010 due to increase in dividends received from investees. Management and service fees, which is computed based on percentage of sales, increased by P0.1B or 9.1% from P0.8 billion in 2010 to P0.9 billion in 2011 mainly due to increase in sales of retail affiliates.

Other revenues, which comprise mainly of income for the promotional activities highlighting products, commission from bills payment, prepaid cards and show tickets, slightly decreased by P0.06 billion or 3.8%.

Total cost and expenses went up by 12.3% to P162.9 billion for the year ended December 31, 2011 compared to 2010. Retail cost of sales increased by 8.4% from P103.5 billion to P112.2 billion while real estate cost of sales and others increased by 71.6% from P6.0 billion to P10.3 billion mainly due to the increase in sales. Selling, general and administrative expenses increased by 13.8% from P35.5 billion in 2010 to P40.4 billion in 2011. Major contributors to the increase in selling, general and administrative expenses are personnel cost, depreciation and amortization, utilities, rent, taxes and licenses, outside services, advertising and promotion and repairs and maintenance totaling to P34.2 billion in 2011 or a growth of 14.8% from P29.8 billion in 2010. The increase is primarily associated with new malls, department stores, supermarkets, savemore and hypermarkets and residential projects.

Other charges of P1.7 billion in 2011 decreased by 10.9% or P0.2 billion from last year's other charges of P1.9 billion. Gain on disposal of investments and properties increased by 61.3% to P2.6 billion from P1.6 billion mainly due to the gain on Belle-PLAI share swap in 2011 of P1.5 billion (net of minority interest). Interest income increased by 15.0% to P4.3 billion in 2011 from P3.7 billion in 2010 mainly due to higher average balance of temporary investments and time deposits and higher interest rates during 2011. These were offset by the increase in interest expense by 15.5% or P1.2 billion to P8.8 billion in 2011 from P7.6 billion in 2010 mainly due to new loans availed of in 2011 (refer to Note 20 of the consolidated financial statements) and decrease in foreign exchange gains by 40.4% from P0.4 billion in 2010 to P0.2 billion in 2011 mainly from restatement of loans availed during the year wherein foreign exchange rate of peso to dollar is lower as compared with year-end exchange rate.

Provision for income tax increased by 1.7% to P5.5 billion for the year 2011 from P5.4 billion in 2010 mainly due to the increase in taxable income.

Minority interest increased to P9.0 billion in 2011 from P6.4 billion in 2010 due to the increase in net income of certain subsidiaries.

Financial Position

Total Liabilities and Stockholders' Equity	**P 449.1**	**P 407.4**	**10.2%**

On the Balance Sheet side, consolidated total assets as of December 31, 2011 amounted to P449.1 billion, higher by 10.2% from P407.4 billion in previous year. On the other hand, consolidated total liabilities grew by 8.2% to P226.8 billion in 2011 from P209.6 billion in previous year.

Total current assets decreased by 2.8% to P101.3 billion as of December 31, 2011 from P104.3 billion as of last year. Cash and cash equivalents decreased by 16.3% to P56.1 billion in 2011 from P67.0 billion in 2010 mainly due to payments for investment acquisitions and capital expenditures. This was partially offset by the increase in receivables by 19.7% to P11.8 billion from P9.8 billion primarily due to increase in receivable from tenants and real estate buyers. Merchandise inventories increased by 28.1% to P13.4 billion from P10.5 billion primarily due to new departments stores, supermarkets, savemore and hypermarkets. Other current assets increased by 22.1% to P17.3 billion from P14.1 billion resulting mainly from the advances to contractors of the real estate group from its current projects.

Total consolidated noncurrent assets amounted to P347.7 billion as of December 31, 2011, a growth of 14.7% from P303.1 billion as of December 31, 2010. Investments available for sale increased by 12.2% to P12.4 billion in 2011 from P11.1 billion in 2010 mainly due to additional investments in bonds during the year. Investments in shares of stock increased by 24.7% to P88.4 billion in 2011 from P70.9 billion in 2010 mainly due to additional investment in and purchase of shares of stock of associates, increase in equity in banks and additional share in the unrealized gain on AFS investments of associates in 2011. The increase in investment properties, property and equipment and land and development by 15.5% or P17.6 billion, 12.9% or P1.7 billion and 16.8% or P3.3 billion, respectively, arose from new mall constructions, real estate developments and purchase of commercial lots in 2011. Deferred tax assets increased by 20.5% to P0.7 billion in 2011 from P0.6 billion in 2010 mainly due to tax effect of unrealized foreign exchange loss, unamortized past service cost and defined benefit liability and accrued leases. Other noncurrent assets increased by 14.4% to P24.1 billion from P21.0 billion mainly due to the non-current receivable from real estate buyers.

Total consolidated current liabilities increased by 27.8 % to P79.8 billion as of December 31, 2011 mainly due to availment of bank loans which increased by 26.2% to P25.7 billion in 2011 from P20.4 billion in 2010 and increase in accounts payable by 14.4% to P44.6 billion in 2011 from P39.0 billion in 2010 mainly arising from trade transactions, subscriptions payable and accrued expenses. See note 18 to the audited consolidated financial statements for further discussion regarding bank loans. Income tax payable increased by 12.3% to P1.3 billion in 2011 from P1.2 billion in 2010 mainly due to higher taxable income in 2011. The 348.3% or P6.2 billion increase in current portion of long-term debt is mainly due to the reclassification from Long-term debt of loans which will mature in 2011. See note 20 to the audited consolidated financial statements for further discussion regarding long-term debt.

Total Noncurrent Liabilities slightly decreased by P0.1 billion to P147.0 billion in 2011 from P147.2 billion in 2010. Defined benefit liability decreased by P0.1 billion or 57.1% to P0.1 billion from P0.2 billion in 2010. Deferred tax liabilities decreased by 2.8% to P4.5 billion in 2011 from P4.6 billion in 2010. Noncurrent derivative liability decreased by 82.4% to P0.2 billion from P1.4 billion mainly due to non-deliverable forwards entered into in 2010 which matured in 2011 and unwinding of interest rate swaps as a result of the prepayment of the underlying loans. See note 30 to the audited consolidated financial statements for further discussion regarding derivative transactions. Long-term debt – net of current portion decreased by P0.1 billion or 0.1% to P128.5 billion in 2011 from P128.6 billion in 2010. See note 20 to the audited consolidated financial statements for further discussion regarding long-term debt. These were partially offset by the increase in Tenants' deposits and others by 10.8% to P13.7 billion in 2011 from P12.4 billion in 2010 mainly due to new malls and expansions and from new condominium projects of the real estate group.

Total Stockholders' equity amounted to P222.3 billion as of December 31, 2011, while total Equity attributable to equity holders of the parent amounted to P157.7 billion. The 48.0% or P0.1 billion increase in cumulative translation adjustment is related to the translation of the financial accounts of SM China malls from China Yuan Renminbi to Philippine peso. Minority interest increased by 14.8% to P64.6 billion in 2011 from P56.3 billion in 2010 mainly due to increase in net assets of certain subsidiaries. See Note 21 to the audited consolidated financial statements for further discussion regarding the Stockholders' Equity.

Key Performance Indicators

The following are the major financial ratios of the Company for the years ended December 31, 2011 and 2010:

Accounts	**12 / 31/ 2011**	**12 / 31/ 2010**
Current Ratio	1.27 : 1.00	1.67 : 1.00
Debt-equity Ratios:		
On Gross Basis	51% : 49%	50% : 50%
On Net Basis	28% : 72%	22% : 78%
Return on Equity	14.2%	13.8%
Net Income to Revenue	10.6%	10.4%
Revenue Growth	13.0%	12.1%
Net Income Growth	15.1%	15.1%
EBITDA *(In Billions of Pesos)*	P44.6B	P38.4B

The current ratio decreased to 1.27 : 1.00 in 2011 from 1.67 : 1.00 in 2010 due to increase in current liabilities resulting from availment of new bank loans, increase in current portion of long-term debt and trade payables and decrease in cash and cash equivalents mainly from investment acquisitions and capital expenditures.

The debt-equity ratio on gross basis slightly increased to 51%:49% in 2011 from 50%:50% in 2010 mainly due to the additional loans in 2011. On a net basis, the debt-equity ratio increased to 28%:72% as some loans were used for capital expansions and general corporate purposes.

In terms of profitability, the return on equity improved to 14.2% in 2011 compared to 13.8% in 2010 due to the 15.1% increase in net income attributable to equity holders of the parent in 2011. Net income to Revenue slightly increased to 10.6% in 2011 compared to 10.4% in 2010. Revenue growth increased to 13.0% in 2011 from 12.1% in 2010 mainly attributed to the increase in merchandise and real estate sales and rental revenues, improvement in the net income of bank associates, net of the increase in costs and expenses. Net income growth is at 15.1% for both years.

EBITDA improved to P44.6 billion in 2011 over P38.4 billion in 2010 mainly due to the increase in income from operations and other income.

The manner by which the Company calculates the foregoing indicators is as follows:

1. Current Ratio — $\dfrac{\text{Current Assets}}{\text{Current Liabilities}}$

2. Debt – Equity Ratio

   a. Gross Basis — $\dfrac{\text{Total Interest Bearing Debt less Pledged time deposits}}{\text{Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less Pledged time deposits}}$

   a. Net Basis — $\dfrac{\text{Total Interest Bearing Debt less cash and cash equivalents, time deposits, investment in bonds held for trading and available for sale}}{\text{Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less cash and cash equivalents, time deposits, investments in bonds held for trading and available for sale}}$

3. Return on Equity — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent}}{\text{Average Equity Attributable to Equity Holders of the Parent}}$

4. Net Income to Revenue — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent}}{\text{Total Revenue}}$

5. Revenue Growth — $\dfrac{\text{Total Revenues (Current Period)}}{\text{Total Revenues (Prior Period)}} - 1$

6. Net Income Growth — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent (Current Period)}}{\text{Net Income Attributable to Equity Holders of the Parent (Prior Period)}} - 1$

7. EBITDA — Income from operations + Depreciation & Amortization

Expansion Plans / Prospects for the Future

For 2012, SM Prime plans to open SM City Lanang in Davao City, SM City General Santos in South Cotabato, SM City Consolacion in Cebu, SM City Olongapo in Zambales, SM City San Fernando in Pampanga and SM Chongqing in China.

By the end of 2012, SM Prime will have 46 malls in the Philippines and five in China with an estimated combined GFA of 6.4 million sqm.

Retail expansion plans for 2012 include the opening of five department stores, six supermarkets, 21 SaveMore branches and five hypermarkets.

SMDC currently has 15 residential projects under its SM Residences brand and two projects under the M Place brand. In order to sustain the growth momentum and to further expand the SMDC's presence in the industry, SMDC will continue to vigorously pursue its vision of uplifting the Filipino lifestyles by launching products that will meet the demand for affordable and high quality residential units in prime locations and will also pursue projects that will cater to the preferences and financial capacity of its target market. Innovation shall remain to be its strength while continuously focusing attention to changing market needs. The broadening and strengthening of its revenue base shall also be pursued as it moves forward.

For the year 2012, SMDC is targeting to launch five new projects in various cities within Metro Manila. In addition, it shall continue to search for viable locations in key cities in Metro Manila in response to the increasing demands for residences. SMDC shall be open to tapping various sources of financing to support its operational needs in real estate development.

The Miranda and Carola clusters of Costa Del Hamilo are targeted to be completed 1st quarter of 2012.

SM Hotels is currently developing Park Inn by Radisson Davao, which will be the very first "Park Inn by Radisson" in the Asia Pacific region. The Park Inn brand is one of the hotel brands under Carlson and is the largest mid-market brand for hotels under development in Europe. Park Inn by Radisson Davao hotel project is approximately a 204-room hotel located in Lanang, Davao City. The hotel is scheduled to open in the first quarter of 2013.

The above expenditures will be funded through internally generated sources and other capital raising initiatives such as bond issuances and loan availments.

The Company has no known direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation. There were no contingent liabilities or assets in the Company's balance sheet. The Company has no off-balance sheet transactions, arrangements, obligations during the reporting year as of balance sheet date.

There are no known trends, events, material changes, seasonal aspects or uncertainties that are expected to affect the Company's continuing operations.

** These were formerly Makro stores which were converted into Hypermarket stores*

Excluding the full year sales of Makro, the retail sales growth would be 12.5% from P115.0 billion in 2009 to P129.4 billion in 2010. Of the total retail sales, the non-food group, which is composed of SM Department stores, contributed 42.7% or P57.9 billion, while the food group, composed of SM Supermarkets, SM SaveMore stores, SM Hypermarkets, and Makro outlets, contributed 57.3% or P77.7 bilion.

As of December 31, 2010, SM Investments' retail subsidiaries have 142 stores. These consist of 40 department stores, 30 supermarkets, 40 SaveMore stores, 25 hypermarkets and 7 Makro outlets.

Real estate sales for the year ended December 31, 2010, derived mainly from condominium projects of SMDC, surged by 64.6% to P10,557.9 million. In 2010, SMDC launched its new brand, MPlace, through the unveiling of its inaugural project, MPlace South Triangle, in the Panay Avenue – Mother Ignacia area of Quezon City. Another project, Blue Residences, which is located at Loyola Heights in Quezon City, was also launched in 2010. In 2009, Princeton Residences and the "Big Four" projects were launched. Princeton Residences is a 40 storey condominium located at Gilmore Ave. Quezon City. The Big Four projects namely, Jazz Residences (Jupiter St., Makati), Sun Residences (Welcome Rotonda, Quezon City), Wind Residences (Tagaytay, Cavite), and Light Residences (Pioneer, EDSA) were simultaneously introduced to the market in December 2009. These projects are experiencing brisk market uptake.

The other ongoing projects of SMDC are the following: Chateau Elysee, a mid-rise condominium project in Parañaque City; Berkeley Residences in Katipunan Road, Quezon City; Grass Residences beside SM City North Edsa; Sea Residences near the Mall of Asia Complex in Pasay City; and Field Residences in Sucat, Parañaque. Both Mezza Residences, a 38-storey four-tower high rise condominium across SM City Sta. Mesa, Quezon City, and Lindenwood Residences, a residential subdivision in Muntinlupa City, are 100% complete. Further contributions to the growth in real estate sales were provided by the sale of condominium units of Costa del Hamilo and club shares in Pico de Loro.

Rent revenue for the year ended December 31, 2010, derived mainly from mall operations of SM Prime Holdings, Inc. (SM Prime), increased by 13.9% to P17.9 billion in 2010 from P15.7 billion in 2009. SM Prime is the country's leading shopping mall developer and operator which currently owns 40 malls in the Philippines and three malls in China. The increase in rental revenues is largely due to rentals from new SM Supermalls. Towards the end of 2008, three malls were opened, namely, SM City Marikina, SM City Rosales and SM City Baliwag. Likewise, the Megamall Atrium and The Annex at SM North Edsa were also opened in the last quarter of 2008. In 2009, SM City Naga, SM Center Las Piñas and SM City Rosario, as well as expansions of SM City Rosales, The Sky Garden at SM North Edsa and SM City Fairview were also opened. In 2010, the SM City Tarlac, SM City San Pablo, SM City Calamba and SM City Novaliches were also opened. The new malls and expansions added 904,000 square meters (sqm) to total gross floor area. Excluding the new malls and expansions, same store rental growth is at 6.0%.

The three malls in China contributed P1.4 billion in 2010 and P1.0 billion in 2009, or 7.7% and 6.5%, respectively, of SMIC's consolidated rental revenue. The rental revenue of these three malls in China increased by 35.5% in 2010 compared to the same period in 2009 largely due to improvements in the average occupancy rate, lease renewals and the opening of the SM Xiamen Lifestyle which added 110,000 sqm of gross floor area. Average occupancy rate for the three malls is now at 92%.

For the year 2010, cinema ticket sales and amusement revenues increased by 31.2% to P3.7 billion in 2010 from P2.8 billion in 2009 due to the deployment of digital technology and cinema renovations which increased our market share for both local and foreign films and more blockbuster movies shown in 2010 compared to 2009. Amusement revenues is mainly composed of amusement income from bowling and ice skating operations including the SM Science Discovery Center and the SM Storyland.

Equity in net earnings of associates increased by 39.2% to P5.4 billion in 2010 from P3.9 billion in 2009, primarily due to the increase in the net income of BDO which is attributed to the continued growth of its operating income resulting from the sustained growth in business volumes, judicious management of operating costs and lower funding costs. BDO continues to derive bulk of its operating income from core lending and deposit-taking business and fee-based service activities. Also, BDO was able to capitalize on trading opportunities during the period.

Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives increased by 141.2% to P1.8 billion in 2010 from P0.8 billion in 2009 primarily due to the gain on sale of various available-for-sale investments of certain subsidiaries and fair value changes of the embedded derivatives related to the US$300 million convertible bonds of SMIC.

Dividend income decreased to P0.3 billion in 2010 compared to P0.4 billion in 2009 mainly due to the maturity of the $50M BDO Preferred shares under "Available-for-sale investments" account of SMPHI in October 2009.

Management fees, which is computed based on percentage of sales, increased by 22.9% from P0.6 billion in 2009 to P0.7 billion in 2010 mainly due to increase in sales of retail affiliates.

Other revenues, which comprise mainly of service fees for the promotional activities highlighting products, commission from bills payment, prepaid cards and show tickets and service income, decreased by 44.2% to P3.0 billion in 2010 from last year's P5.3 billion mainly due to the P1.2 billion reversal of asset provisions in 2009.

Total cost and expenses went up by 11.0% to P146.2 billion for the year ended December 31, 2010 compared to 2009. Retail cost of sales increased by 6.4% from P98.5 billion to P104.8 billion while real estate cost of sales and others increased by 67.1% from P3.6 billion to P6.0 billion mainly due to the increase in sales. Selling, general and administrative expenses increased by 19.5% from P29.7 billion in 2009 to P35.5 billion in 2010. Major contributors to the increase in selling, general and administrative expenses are personnel cost, depreciation and amortization, utilities, rent, taxes and licenses, outside services, advertising and promotion and repairs and maintenance totaling to P29.8 billion in 2010 or a growth of 17.7% from P25.3 billion in 2009. The increase is primarily associated with mall expansions and new malls, department stores, supermarkets, savemore and hypermarkets.

Other charges of P2.9 billion in 2010 increased from last year's other charges of P2.4 billion mainly due to the additional interest expense on loans availed and bonds issued in 2010 (refer to Note 20 of the consolidated financial statements). Interest income increased by 7.5% from P3.4 billion in 2009 to P3.7 billion in 2010 mainly due to higher balance of temporary investments and time deposits in 2010. Gain on sale of investments in associates and real properties increased by 235.3% to P697.4 billion from P208.0 billion mainly due to disposal of certain investments in associates during the year. The increase in foreign exchange gains by 81.8% from P0.2 billion in 2009 to P0.4 billion in 2010 is primarily related to the decline in exchange rate from P46.20:US$1.00 in 2009 to P43.84:US$1.00 in 2010.

Provision for income tax increased by 13.1% to P5.4 billion for the year 2010 from P4.8 billion in 2009 mainly due to the increase in taxable income.

Minority interest increased to P6.4 billion in 2010 from P5.1 billion in 2009 due to the increase in net income of certain subsidiaries.

Total Liabilities and Stockholders' Equity	**P 407.4**	**P 341.6**	**19.2%**

On the Balance Sheet side, consolidated total assets as of December 31, 2010 amounted to P407.4 billion, higher by 19.2% from P341.6 billion in previous year. On the other hand, consolidated total liabilities grew by 19.1% to P209.6 billion in 2010 from P175.9 billion in previous year.

Total current assets increased by 17.9% to P104.3 billion as of December 31, 2010 from P88.5 billion as of last year. Cash and cash equivalents increased by 53.8% to P67.0 billion in 2010 from P43.5 billion in 2009 mainly due to proceeds from loan availments during the year. Time deposits and short-term investments decreased by 91.5% to P0.9 billion from P10.4 billion as these were used to fund the early redemption by the bondholders of the US$246.3 million convertible bonds in March 2010. Investments held for trading and sale decreased by 58.1% to P2.0 billion in 2010 from P4.8 billion in 2009 mainly due to disposal of certain investments in bonds. Receivables increased by 11.7% to P9.8 billion from P8.8 billion primarily due to increase in receivable from tenants and real estate buyers associated with the increase in real estate sales and rental revenues. Merchandise inventories increased by 35.1% to P10.5 billion from P7.8 billion primarily due to new departments stores, supermarkets, savemore and hypermarkets. Other current assets increased by 6.9% to P14.1 billion from P13.2 billion mainly due to the increase in inventory of club shares of Costa del Hamilo in Pico de Loro to P0.9 billion in 2010 from P0.02 billion in 2009.

Total consolidated noncurrent assets amounted to P303.1 billion as of December 31, 2010, a growth of 19.7% from P253.2 billion as of December 31, 2009. Investments available for sale increased by 44.5% to P11.1 billion in 2010 from P7.7 billion in 2009 mainly due to additional investments in bonds during the year. Investments in shares of stock increased by 22.5% to P70.9 billion in 2010 from P57.8 billion in 2009 mainly due to additional investment in shares of stock of associates, increase in equity in banks and additional share in the unrealized gain on AFS investments of associates in 2010. The increase in investment properties, property and equipment and land and development by 11.8% or P12.0 billion, 21.6% or P2.4 billion and 59.3% or P7.3 billion, respectively, arose from new mall constructions and expansions, real estate developments and purchase of commercial lots in 2010. The increase in noncurrent time deposits by 16.1% to P37.4 billion in 2010 from P32.2 billion in 2009 mainly came from the US$186.3 million bonds issued in 2010. Deferred tax assets went down by 39.6% to P0.6

billion in 2010 from P0.9 billion in 2009 mainly due to the decrease in deferred tax from unrealized foreign exchange loss and others of the group. Other noncurrent assets grew by 49.8% to P21.0 billion from P14.0 billion mainly due to the increase in non-current receivable from real estate buyers and escrow fund for SMDC projects.

Total consolidated current liabilities increased by 53.1% to P62.4 billion as of December 31, 2010 mainly due to availment of bank loans which increased by 318.8% to P20.4 billion in 2010 from P4.9 billion in 2009 and increase in accounts payable by 15.2% to P39.0 billion in 2010 from P33.9 billion in 2009 arising from trade transactions, acquisition of land and payable to government agencies in 2010. See note 18 to the audited consolidated financial statements for further discussion regarding bank loans. Income tax payable increased by 11.0% to P1.2 billion in 2010 from P1.1 billion in 2009 mainly due to higher taxable income in 2010. The 92.0% or P0.8 billion increase in current portion of long-term debt is mainly due to the reclassification from Long-term debt of loans which will mature in 2011. See note 20 to the audited consolidated financial statements for further discussion regarding long-term debt.

Total Noncurrent Liabilities increased to P147.2 billion, mainly due to the issuance of additional bonds by SMIC (US$186.3 million new money component of the US$400 million exchangeable bonds), corporate notes by SMDC (P10.0 billion) and SM Prime (P6.0 billion) and loan availments of the group, net of loan payments. The details of these transactions are further discussed in Note 20 to the audited consolidated financial statements. Defined benefit liability decreased by 49.0% to P0.2 billion in 2010 from P0.3 billion in 2009 due to additional contributions to the retirement fund in 2010. Deferred tax liabilities increased by 6.6% to P4.6 billion in 2010 from P4.3 billion in 2009 mainly due to higher capitalized interest and deferred rent income in 2010. Tenants' deposits and others increased by 23.9% to P12.4 billion in 2010 from P10.0 billion in 2009 mainly due to new malls and expansions in 2009 and 2010 and from new condominium projects of the real estate group. Noncurrent derivative liability decreased by 38.5% to P1.4 billion from P2.2 billion mainly due to the availment by the bondholders of US$246.3 million of the early redemption option in March 2010 and conversion of US$9M convertible bond of SMIC. See note 30 to the audited consolidated financial statements for further discussion regarding derivative transactions.

Total Stockholders' equity amounted to P197.8 billion as of December 31, 2010, while total Equity attributable to equity holders of the parent amounted to P141.5 billion. Cost of common shares held by a subsidiary increased by 993.1% to P0.3 billion in 2010 from P0.02 billion in 2009 mainly due to the acquisition by a subsidiary of parent common shares during the year. The 16.0% or P0.06 billion decrease in cumulative translation adjustment is related to the translation of the financial accounts of SM China malls from China Yuan Renminbi to Philippine peso. Minority interest increased by 37.5% to P56.3 billion in 2010 from P40.9 billion in 2009 mainly due to increase in net assets of certain subsidiaries. See Note 21 to the audited consolidated financial statements for further discussion regarding the Stockholders' Equity.

The Company has no known direct or contingent financial obligation that is material to the Company operations, including any default or acceleration of an obligation. The Company has no off-balance sheet transactions, arrangements, obligations during the reporting year and as of the balance sheet date.

There are no known trends, events, material changes, seasonal aspects or uncertainties that are expected to affect the company's continuing operations.

Key Performance Indicators

The following are the major financial ratios of the Company for the years ended December 31, 2010 and 2009:

Accounts	12 / 31/ 2010	12 / 31/ 2009
Current Ratio	1.67 : 1.00	2.17 : 1.00
Debt-equity Ratios:		
On Gross Basis	50% : 50%	49% : 51%
On Net Basis	22% : 78%	21% : 79%
Return on Equity	13.8%	13.6%

Revenue Growth	12.1%	8.5%
Net Income Growth	15.1%	14.4%
EBITDA *(In Billions of Pesos)*	P39.4B	P34.2B

The current ratio decreased to 1.67 : 1.00 in 2010 from 2.17 : 1.00 in 2009 due to increase in current liabilities resulting from availment of new bank loans, increase in current portion of long-term debt, decline in current time deposits as result of the availment of the early redemption option by the bondholders of US$246.3 million in March 2010 and proceeds from sale of certain investments held for trading and sale which were placed in non-current time deposits.

The debt-equity ratio on gross basis increased to 50%:50% in 2010 from 49%:51% in 2009 mainly due to the additional loans and bond issuances in 2010. On a net basis, the debt-equity ratio increased to 22%:78% as some loans were used for capital expansions and general corporate purposes.

In terms of profitability, the return on equity improved to 13.8% in 2010 compared to 13.6% in 2009 due to the 15.1% increase in net income attributable to equity holders of the parent in 2010. Net income to Revenue slightly increased to 10.3% in 2010 compared to 10.0% in 2009. Revenue growth in 2010 increased to 12.1% compared to 8.5% in 2009 mainly due to growth in sales, rent, equity in net earnings and gain on sale of investments. Net income attributable to equity holders of the Parent grew by 15.1% in 2010 due to the increase in merchandise and real estate sales, improvement in the net income of bank associates, net of the increase in costs and expenses and other charges.

EBITDA improved to P39.4 billion in 2010 over P34.2 billion in 2009 mainly due to higher revenue growth of 12.1% this year compared with last year's 8.5% and higher operating margin of 18.5% this year compared with last year's 17.7%.

The manner by which the Company calculates the foregoing indicators is as follows:

1. Current Ratio — $\dfrac{\text{Current Assets}}{\text{Current Liabilities}}$

2. Debt – Equity Ratio

   b. Gross Basis — $\dfrac{\text{Total Interest Bearing Debt less Pledged time deposits}}{\text{Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less Pledged time deposits}}$

   a. Net Basis — $\dfrac{\text{Total Interest Bearing Debt less cash and cash equivalents, time deposits, investment in bonds held for trading and available for sale}}{\text{Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less cash and cash equivalents, time deposits and investments in bonds held for trading and available for sale}}$

3. Return on Equity — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent}}{\text{Average Equity Attributable to Equity Holders of the Parent}}$

4. Net Income to Revenue — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent}}{\text{Total Revenue}}$

5. Revenue Growth — $\dfrac{\text{Total Revenues (Current Period)}}{\text{Total Revenues (Prior Period)}} - 1$

6. Net Income Growth — $\dfrac{\text{Net Income Attributable to Equity Holders of the Parent (Current Period)}}{\text{Net Income Attributable to Equity Holders of the Parent (Prior Period)}} - 1$

7. EBITDA — Income from operations + Depreciation & Amortization

Expansion Plans / Prospects for the Future

For 2011, SM Prime plans to open SM City Masinag in Antipolo City, SM City San Fernando in Pampanga and SM City Olongapo in Zambales. Part of the 2011 program is for SM Prime to also expand two of its existing malls namely SM City Davao in Southern Mindanao and SM City Dasmariñas in Cavite. SM Prime is also scheduled to open SM Suzhou in first half of 2011, its fourth mall in China, which is located in the province of Jiangsu. SM Suzhou will have a GFA of approximately 70,000 sqm.

By the end of 2011, SM Prime will have 43 malls in the Philippines, of which 16 are in Metro Manila, and the others are spread out nationwide, and four malls in China. The 47 malls will have an estimated combined GFA of 5.7 million sqm. by the end of 2011.

Retail expansion plans for 2011 include the opening of four department stores, six supermarkets, 13 SaveMore branches and five hypermarkets.

By end 2010, SMDC had 14 projects from only 12 in 2009. With the strong and positive reception of the market on SMDC's newly launched MPlace and Blue Residence together with the "Big Four" projects (Jazz Residences, Sun Residences, Wind Residences, and Light Residences) launched in December 2009, SMDC management is very confident toward expanding its market share by going to "high-end" locations and focusing on 5-star quality homes at affordable prices. With many of its residential projects nearly sold out, SMDC plans to unveil five new projects in 2011.

Miranda and Carola clusters of Costa Del Hamilo are targeted to be completed by 3rd quarter and 4th quarter of 2011, respectively. A ferry terminal at Hamilo Coast's Papaya Cove is targeted for completion and operation by April 2011.

In 2nd half of 2011, SM Hotels will open Pico Sands Hotel, a 154 room resort-type hotel development in Hamilo Coast in Nasugbu, Batangas.

The above expenditures will be funded through internally generated sources and other capital raising initiatives such as bond issuances and loan availments.

** These were formerly Makro stores which were converted into Hypermarket stores*

Excluding the full year sales of Makro, the retail sales growth would be 11.3%. The sales contribution of SM Department Stores, SM Supermarkets and SM Hypermarkets (including Makro) are 42.8%, 33.7%, and 23.5%, respectively in 2009 and 42.4%, 33.2%, and 24.4%, respectively in 2008.

Of the total retail sales, the non-food group, which is composed of SM Department stores, contributed 42.8%, while the food group, composed of SM Supermarkets, SM SaveMore stores, SM Hypermarkets, and Makro outlets, contributed 57.2%.

As of December 31, 2009, SM Investments' retail subsidiaries have 119 stores. These consist of 36 department stores, 26 supermarkets, 26 SaveMore stores, 19 hypermarkets and 12 Makro outlets.

Real estate sales for the year ended December 31, 2009, derived mainly from condominium projects of SMDC, surged by 68.4% to P6,415.2 million. In 2009, Princeton Residences and the "Big Four" projects were launched. Princeton Residences is a 40-storey condominium located at Gilmore Ave. Quezon City. The Big Four projects namely, Jazz Residences (Jupiter St., Makati), Sun Residences (Welcome Rotonda, Quezon City), Wind Residences (Tagaytay, Cavite), and Light Residences (Pioneer, EDSA) were simultaneously introduced to the market in December 2009. These projects, which will have fully furnished units, are experiencing brisk market uptake.

The other ongoing projects of SMDC are the following: Chateau Elysee, a mid-rise condominium project in Parañaque City, which has completed five of its six clusters; Berkeley Residences in Katipunan Road, Quezon City, which is 63% complete; Grass Residences beside SM City North Edsa, which is 58% complete with its Tower 1; Sea Residences near the Mall of Asia Complex in Pasay City, which is 38% complete with Phase 1; and Field Residences in Sucat, Parañaque, which is 95% complete with its Tower 1. Both Mezza Residences, a 38-storey four-tower high rise condominium across SM City Sta. Mesa, Quezon City, and Lindenwood Residences, a residential subdivision in Muntinlupa City, are 100% complete. Further contributions to the growth in real estate sales were provided by the sale of condominium units of Costa del Hamilo and club shares in Pico de Loro.

SM Prime Holdings, Inc. (SM Prime), the country's leading shopping mall developer and operator which currently owns 36 malls in the Philippines and three malls in China posted a 15% increase in rental revenue. This is largely due to rentals from new SM Supermalls. Towards the end of 2008, three malls were opened, namely, SM City Marikina, SM City Rosales and SM City Baliwag. Likewise, the Megamall Atrium and The Annex at SM North Edsa were also opened in the last quarter of 2008. In 2009, SM City Naga, SM Center Las Piñas and SM City Rosario, as well as expansions of SM City Rosales, The Sky Garden at SM North Edsa and SM City Fairview were also opened. The new malls and expansions in 2009 added 226,000 square meters (sqm) to total gross floor area, bringing it to 4.5 million sqm, for a 5% increase. Excluding the new malls and expansions which opened in 2008, same store rental growth is at 5%.

The three malls in China contributed P1.0 billion in 2009 and P0.8 billion in 2008, or 6.5% and 6.0%, respectively, of SMIC's consolidated rental revenue. The rental revenue of these three malls in China increased by 26.4% in 2009 compared to the same period in 2008 largely due to improvements in the average occupancy rate and the opening of the SM Xiamen Lifestyle which added 110,000 sqm of gross floor area. Average occupancy rate for the three malls is now at 86%.

For the year 2009, cinema ticket sales and amusement revenues increased due to more blockbuster movies shown in 2009 compared to 2008. Amusement revenues is mainly composed of amusement income from bowling and ice skating operations including the SM Science Discovery Center and the SM Storyland.

Equity in net earnings of associates expanded by 138.7% to P3.9 billion in 2009 from P1.6 billion in 2008, primarily due to the increase in the net income of BDO and China Banking

Corporation as a result of the turnaround in the market conditions following the previous year's financial crisis.

Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives decreased significantly from P6.6 billion in 2008 to P0.8 billion in 2009 primarily due to the P7.2 billion gain from the sale of 339.3 million shares of San Miguel Corporation, net of the provision for the decline in mark-to-market valuation of investment securities in 2008.

Dividend income decreased to P0.4 billion for the year 2009 compared to P0.8 billion in 2008 mainly due to the sale of 339.3 million San Miguel shares in October 2008.

Other revenues, which comprise mainly of service fees for the promotional activities highlighting products, commission from bills payment, prepaid cards and show tickets and service income, increased by 52.6% to P5.3 billion in 2009 from last year's P3.5 billion mainly due to the opening of new stores and expansions in 2009.

Total cost and expenses went up by 4.8% to P131.8 billion for the year ended December 31, 2009 compared to 2008 primarily brought about by increase in costs associated with mall expansions and new malls, department stores, supermarkets, savemore and hypermarkets, net of the effect of general asset provisions amounting to P5.6 billion in 2008.

Other charges of P2.4 billion in 2009 increased from last year's other income of P1.4 billion mainly due to the additional interest expense on loans availed and bonds issued in 2009 and the decrease in interest income in 2009 compared to 2008. (please refer to Note 25 of the consolidated financial statements).

Provision for income tax decreased by 15.8% to P4.8 billion for the year 2009 from P5.7 billion in 2008 mainly due to the reduction in the corporate income tax rate from 35% in 2008 to 30% starting 2009.

Minority interest increased to P5.1 billion in 2009 from P3.4 billion in 2008 due to the increase in net income of certain subsidiaries.

On the Balance Sheet side, consolidated total assets as of December 31, 2009 amounted to P341.6 billion, higher by 16.8% from P292.4 billion in previous year. On the other hand, consolidated total liabilities grew by 23.3% to P175.9 billion in 2009 from P142.6 billion in previous year.

Total current assets increased by 6.3% to P88.5 billion as of December 31, 2009 from P83.2 billion as of last year mainly due to additional investments in time deposits and short term investments (partly from issuance of US$500 million bonds) and reclassification of noncurrent time deposits in 2008 which will mature in 2010, increase in merchandise inventories, current receivable from real estate buyers, and condominium units for sale accounts, net of decrease in cash and cash equivalents as a result of payments for capital expenditures and debt maturities.

Total consolidated noncurrent assets amounted to P253.2 billion as of December 31, 2009, a growth of 21.0% from P209.2 billion as of December 31, 2008 mainly due to increase in investment properties arising from new mall constructions and expansions and real estate developments, purchase of commercial lots, additional investments in shares of stocks of associates, additional investments in time deposits (partly from issuance of US$500 million bonds), increase in non-current receivable from real estate buyers and recognition of goodwill arising from the acquisition of the minority interest of a certain subsidiary.

Total consolidated current liabilities decreased by 29.3% to P40.8 billion as of December 31, 2009 mainly due to payment of bank loans and current portion of long-term debt, net of increase in accounts payable. Current portion of derivative liabilities account in 2008 mainly pertains to marked-to-market losses on the plain vanilla cross currency swap entered into in 2004 by SM Prime which was fully settled in October 2009.

Total Noncurrent Liabilities increased to P135.1 billion, mainly due to the Group's loan availments, net of loan payments and issuance of bonds by SMIC (P10 billion retail bond in June 2009 and US$500 million bond in September 2009) and the issuance of corporate notes by SM Prime (P5 billion in April 2009). The details of these transactions are further discussed in Note 20 to the audited consolidated financial statements.

Total Stockholders' equity amounted to P165.7 billion as of December 31, 2009, while total Equity attributable to equity holders of the parent amounted to P124.8 billion. See Note 21 to the audited consolidated financial statements for further discussion regarding the Stockholders' Equity.

Key Performance Indicators

The following are the major financial ratios of the Company for the years ended December 31, 2009 and 2008:

Accounts	**12 / 31/ 2009**	**12 / 31/ 2008**
Current Ratio	2.17 : 1.00	1.44 : 1.00
Debt-equity Ratios:		
On Gross Basis	49% : 51%	45% : 55%
On Net Basis	21% : 79%	18% : 82%
Return on Equity	13.6%	12.9%
Net Income to Revenue	10.0%	9.5%
Revenue Growth	8.5%	19.1%
Net Income Growth	14.4%	15.6%
EBITDA *(In Billions of Pesos)*	P34.2B	P28.1B

The current ratio increased to 2.17 : 1.00 in 2009 from 1.44:1.00 in 2008 due to decline in current liabilities resulting from payment of bank loans and current portion of long-term debt which matured during the year and additional investments in time deposits and short term investments (partly from issuance of US$500 million bonds).

The debt-equity ratio on gross basis increased to 49%:51% in 2009 from 45%:55% in 2008 mainly due to the additional loans and bond issuances in 2009. On a net basis, the debt-equity ratio increased to 21%:79%.

In terms of profitability, the return on equity improved to 13.6% in 2009 compared to 12.9% in 2008 due to the 14.4% increase in net income attributable to equity holders of the parent in 2009. Net income to Revenue slightly increased to 10.0% in 2009 compared to 9.5% in 2008 due to the minimal increase in costs and the decrease in other income in 2009 over 2008. Revenue growth in 2009 decreased to 8.5% compared to 19.1% in 2008 mainly due to the gain on sale of 339.3 million shares of stock of San Miguel Corporation in 2008 in spite of the growth in sales, rent, equity in net earnings and other revenues. Net income attributable to equity holders of the Parent grew by 14.4% in 2009 due to the increase in merchandise and real estate sales, improvement in the net income of bank associates, net of the increase in costs and expenses and other charges.

EBITDA improved to P34.2 billion in 2009 over P28.1 billion in 2008 mainly due to higher income from operations in 2009 resulting from lower growth of costs and expenses by 4.8% compared with last year's 22.9%.

The manner by which the Company calculates the foregoing indicators is as follows:

1. Current Ratio — Current Assets / Current Liabilities

2. Debt – Equity Ratio

   a. Gross Basis — Total Interest Bearing Debt less Pledged time deposits / Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less Pledged time deposits

   b. Net Basis — Total Interest Bearing Debt less cash and cash equivalents, time deposits, investment in bonds held for trading and available for sale / Total Equity Attributable to Equity Holders of the Parent) + Total Interest Bearing Debt less cash and cash equivalents, time deposits and investments in bonds held for trading and available for sale

3. Return on Equity — Net Income Attributable to Equity Holders of the Parent / Average Equity Attributable to Equity Holders of the Parent

4. Net Income to Revenue — Net Income Attributable to Equity Holders of the Parent / Total Revenue

5. Revenue Growth — Total Revenues (Current Period) / Total Revenues (Prior Period) - 1

6. Net Income Growth — Net Income Attributable to Equity Holders of the Parent (Current Period) / Net Income Attributable to Equity Holders of the Parent (Prior Period) - 1

7. EBITDA — Income from operations + Depreciation & Amortization

For 2012, SM Prime is scheduled to launch SM City Lanang in Davao City, SM City General Santos in South Cotabato, SM City Consolacion in Cebu, SM City Olongapo in Zambales, SM City San Fernando in Pampanga and SM Chongqing in China. By the end of 2012, SM Prime will have 46 malls in the Philippines and five in China with an estimated combined GFA of 6.4 million sqm.

Retail

SM Department Stores is the leading innovator and trendsetter in the local retail merchandising scene. An institution that has become part of the lives of many Filipinos, it serves millions of customers in 41 stores with a total of 405,935 square meters across the country.

These forty-one stores are strategically located in Metro Manila and key provincial cities, making it possible for the SM brand to be associated with quality merchandise sold at reasonable prices, as well as services that go beyond shopping, from as far north as Baguio to as far south as Davao. Five of these department stores – in Makati, Cubao, Quiapo, Harrison, and Delgado – are stand alone stores, and thirty-six are based in the SM Supermalls.

The opening of new stores in 2010 and 2011 has allowed SM to serve more customers. Four opened in Tarlac, San Pablo, Calamba, and Novaliches in 2010 while only one opened in Masinag in 2011.

After having received the **Best of the Best Award from Retail Asia** for the past five consecutive years, the SM Department Stores was bestowed the Hall of Fame Award. With this honor, SM Department Stores will continue to uphold this honor by continuing to give its customers the best products, the best value for money, and the best services possible. It also aims to maintain its leadership in the marketplace, to be on the forefront of retail technology, and to grow through consumer marketing and product diversification. In 2012, five new department stores will be opened.

SM Supermarkets, SaveMore and SM Hypermarkets currently has thirty-three (33) supermarkets, sixty five (65) savemore stores and thirty (30) hypermarkets.

In 2011, three (3) supermarkets were opened in SM City Masinag, Megamall A, and SM Olongapo.

In 2011, savemore branches were opened in Muntinlupa, Jackmann, Capistrano, Bayambang, Malhacan, Kauswagan, COD-Araneta, Sta. Ana, Apalit, Sta. Maria, Biñan, Tuguegarao, Halang, Rempson, Balibago, Canduman, Maguikay, Pedro Gil, Iba Zambales, Kanlaon, Ilagan, A. Avenue, Laoag, Salitran, Blumentritt. In 2011, five (5) hypermarkets were opened. These were Subangdaku Mandaue Cebu, JMall Mandaue Cebu, Imus Cavite, SM Marketmall Dasmariñas Cavite and Sucat-Lopez Parañaque, whereas in 2010, six (6) hypermarkets were opened in North Harbour Manila, Adriatico, Edsa Cubao, Jaro Iloilo, Jalandoni Batangas, and Mabalacat Pampanga.

The total stores area of the 128 stores is 734,988 sqm.

For 2012, the retail group plans to open another 28 to 32 stores. Expansion plans for 2012 include the opening of six supermarkets, 21 savemore branches and five hypermarkets.

"Makro" closed its 4 remaining stores in December 2011. Three of which will be converted into hypermarkets and the other into a SaveMore store in 2012. SMIC acquired Makro in 2007, through its parent holding company, Rappel Holdings Inc. Rappel is an unlisted company engaged in the business of investing, purchasing, acquiring and owning real or personal property, including shares of stock, bonds and other forms of securities. Makro, on the other hand, is an unlisted company engaged in buying and selling of food and non-food items to registered customers at wholesale and/or retail under a warehouse club format.

Financial Services

BDO Unibank, Inc. ("BDO"), is a full-service universal bank which provides a complete array of industry-leading products and services to the retail and corporate markets including Lending (corporate, middle market, SME, and consumer), Deposit-taking, Foreign Exchange, Brokering, Trust and Investments, Credit Cards, Corporate Cash Management, and Remittances. Through its subsidiaries, the Bank offers Leasing and Financing, Investment Banking, Private Banking, Bancassurance, Insurance Brokerage, and Stock Brokerage services.

BDO's institutional strengths and value-added products and services hold the key to its successful business relationships with customers. On the front line, its branches remain at the forefront of setting high standards as a sales and service-oriented, customer-focused force. BDO has one of the largest distribution networks, with more than 740 operating branches and over 1,600 ATMs nationwide.

Through selective acquisitions and organic growth, BDO has positioned itself for increased balance sheet strength and continuing expansion into new markets. As of 31 December 2011, BDO is the country's largest bank in terms of total resources, total deposits and assets under management.

Looking forward, BDO will continue to take advantage of promising growth opportunities across industry and geographic segments while positioning defensively against potential external or industry threats. It will continue to build on its strong business franchise to maintain leadership positions across most business lines, as well as further strengthen its capabilities to support future growth and actively respond to strategic opportunities and market challenges. Over the long-term, BDO aims to be the preferred bank in every market it serves and create shareholder value through superior returns.

The China Banking Corporation (China Bank), was incorporated on July 20, 1920 and commenced business on August 16 of the same year as the first privately owned local commercial bank in the Philippines. It resumed operations after World War II on July 23, 1945 and played a key role in the post-war reconstruction and economic recovery by providing financial support to businesses and entrepreneurs. China Bank was listed on the local stock exchange in 1947 and acquired its universal banking license in 1991. The Bank started by catering mainly to the Chinese-Filipino commercial sector, but has since expanded its market scope to include the retail and consumer segments. Its core banking franchise stems mainly from its 91-year history in the Philippines, a factor that has enabled it to become deeply entrenched within the socioeconomic fabric of the Chinese-Filipino community. The Bank's market comprises the corporate, commercial, middle and retail markets. It provides a wide range of domestic and international banking services, and is one of the largest commercial banks in the country in terms of assets and capital.

In 2011, China Bank was awarded "Best Wealth Management House in the Philippines" China Bank's Private Banking Group (PBG) and was also cited as a "rising star", an emerging private banking powerhouse in the country, at The Asset Triple A Investment Awards. The Bank received Straight Through Processing (STP) award for being a top Commercial Payment Bank in the Philippines. The Bank was also recognized by Bank of America Merrill Lynch for achieving an exceptionally high straight through processing rate for commercial payments in 2010.

China Bank offers a wide range of financial products and services through its network of 293 branches (including 25 branches of China Bank Savings) to-date. Complementing this branch network are convenient and secure electronic banking channels for day & night banking service, China Bank TellerCard ATM, China Bank Online (mobile and internet banking), and China Bank TellerPhone (phone banking). The Bank recently launched its Yuan Savings Account to cater to its clients' trade, investment and remittance requirements using this currency.

China Bank's expansion plans will continue for the next three (3) years as it goes full swing to reach its goal of 400 branches by 2014. The Bank will continue to invest heavily in expanding its branch and ATM networks and strengthen its technological capabilities. For 2012, the Bank will continue to carry out its core strategies which include strengthening revenue growth from its core businesses particularly on lending and treasury products, diversify its revenue sources and maximize synergy with its new businesses such as wealth management, remittances, bancassurance, cash management and its savings bank. The Bank will continue to strengthen its ability to compete through improved customer focus, strong business & entrepreneurial spirit, organizational transformation and operational efficiency.

Real Estate Development and Tourism

SM Development Corporation ("SM Development or SMDC"), was incorporated in the Philippines in 1974 under the name Ayala Fund, Inc, a publicly-listed closed-end investment company. After the SM Group obtained majority shareholdings in March 1986, it was renamed SM Fund, Inc. and continued to provide an avenue for investment in diverse businesses in the Philippines with the aim of maximizing dividend income and capital appreciation.

In May 1996, SM Fund, Inc. was renamed SM Development Corporation to reflect its new business thrust of property development, whose primary objective is to pursue opportunities in the real estate industry. In line with this, its business proposition was directed toward tapping the residential property market near/beside SM shopping malls. Meanwhile, the business of securities investment is retained to provide a regular flow of earnings in the form of interest and dividend income.

SMDC has a current portfolio of 17 residential projects, 16 of which are in Metro Manila and one in Tagaytay City in the Province of Cavite. In 2010, SMDC launched its new brand, MPlace, through the unveiling of its inaugural project, MPlace South Triangle in Panay Avenue, Quezon City. In 2011, SMDC launched its latest projects namely Mezza II Residences in Quezon City, Green Residences in Manila, Shell Residences in Pasay City, and an addition to the MPlace brand namely, MPlace Ortigas in Pasig City.

Highlands Prime, Inc ("HPI") is a publicly listed high-end property development company majority owned by the SM Group. HPI develops and sells residential properties located at a private and exclusive mountainside resort called Tagaytay Highlands. Tagaytay Highlands is in Tagaytay City, an hour and a half drive from the Makati Central Business District. It is a popular weekend destination for upscale Manila residents due to its proximity, cool climate and incomparable views of Taal lake, Laguna de Bay and the mountains of Batangas and Laguna.

HPI's assets are comprised primarily of undeveloped land in the Tagaytay Highlands and Tagaytay Midlands resort complex. HPI has completed five projects, to date - The Woodridge at Tagaytay Highlands, Phase I of The Horizon, Phase I of the Woodridge Place, Phases I and II of The Hillside, and Pueblo Real 1. The Woodridge, The Hillside Phase I and The Woodridge Place Phase I are fully sold.

In 2011, the Company has three projects under construction namely: The Woodridge Place II, Pueblo Real Phase 1 and Sierra Lago.

This 2012, the company will be introducing a new leisure lot development at The Highlands, envisioned to have modern log homes which highlight the use of rustic wood elements in modern architecture. By mid-year, HPI is slated to come out with another themed residential lot development at The Midlands.

Costa del Hamilo, Inc. ("CDHI") was incorporated in the Philippines and registered with the SEC on September 26, 2006 with the primary purpose of acquiring, developing and selling real estate and investment in various securities. CDHI is the developer of Pico de Loro Cove, the first residential community within Hamilo Coast, a master planned leisure destination development in Nasugbu Batangas encompassing 13 coastal coves.

Pico de Loro Cove is located in a lush 40-hectare valley, bound by rolling mountains and a protected cove that contains a pristine swimming beach. Pico de Loro Cove offers residential condominium unit dwellings, as well as membership in an exclusive Beach & Country Club.

The Beach Club was completed and opened in 2009, while the Country Club was completed in June 2010, providing members with the complete club experience together with attendant facilities and amenities. Most recreational activities are outdoor and nature-based owing to the rich natural environment, such as kayaking, snorkeling, mountain biking, hiking, and others.

The residential clusters of Jacana, Myna and Miranda were completed in January 2010, June 2010 and October 2011, respectively. Target completion of the Carola cluster is by 1st quarter of 2012. The ferry terminal at Hamilo Coast's Papaya Cove was completed by May 2011. The exclusive onsite Pico Sands Hotel was operational in 2nd quarter of 2011.

Belle Corporation ("Belle") was incorporated in 1973 as Belle Mining and Oil Exploration, Incorporated ("Belle Resources") and, in 1976, was listed on the Philippine Stock Exchange. In 1989, Belle Resources developed a golf club named Tagaytay Highlands International Golf Club, Incorporated ("Tagaytay Highlands"), which became its initial foray into the property development sector. In 1994, Belle Resources changed its name to Belle Corporation to underscore the shift in its principal activity of real estate development. Belle mainly develops property within the Tagaytay Highlands, Midlands and Greenlands complex ("Complex"), a 1,280-hectare property that provides excellent views of Taal lake, Laguna de Bay and the towering mountains of Batangas and Laguna. The Complex is located less than 90 minutes south of Makati City in Tagaytay City and adjoining areas in Batangas province.

Since 1989, Belle has launched a total of 19 real estate projects, two golf clubs and one country club, with total gross land area of approximately 600 hectares in Tagaytay City and Batangas.

In 2009, the Belle entered into a Memorandum of Agreement with SM Commerical Properties and its related companies, for Belle's acquisition of all the outstanding capital stock of Premium Leisure & Amusement, Inc. ("PLAI"). PLAI and its consortium members were granted a license by the Philippine Amusement and Gaming Corporation, to develop and operate an integrated resort complex. This marked the Company's strategic entry into the integrated resort industry. The construction of the Belle Grande Manila Bay integrated resort ("Belle Grande") began in January 2010 and is currently in full swing. Belle Grande is being constructed on 6.2-hectares of prime land at the corner of Roxas Boulevard and Aseana Avenue in Parañaque City. At completion, the integrated resort will have more than 25 hectares of gross floor area, and will house approximately 1.8 hectares of gaming areas, more than 2 hectares of retail and restaurant facilities, more than 800 hotel rooms of 5-star and 6-star quality, a state-of–the-art performing arts theater and other entertainment facilities. Belle Grande is only about 1 kilometer away from the Mall of Asia complex.

Other real estate projects include the development of the Mall of Asia Complex in Pasay City. It houses the SM Mall of Asia, which is the country's biggest and most ambitious mall project opened to the public; the SMX Convention Center, which serves as a venue for major conferences, trade exhibitions and shows in Metro Manila; the One E-Com Center, which is a ten-storey building specifically designed for the use of contact center, customer relationship management, business process outsourcing (BPO), and other specialized companies; the SM Corporate Offices; the OneEsplanade; and the San Miguel by the Bay. The other developments are the TwoE-Com Center, a 15-storey building with a gross floor area of approximately 100,000 square meters, which was completed at year-end 2011; and the SM Arena, which is a five-storey, first-class multipurpose venue for sporting events, concerts, entertainment shows, and other similar events with a seating capacity of approximately 16,000.

Hotels

SM Hotels and Conventions Corp., formerly SM Hotels Corp., was incorporated in March 2008 with the primary purpose of developing and managing the various hotel and convention properties of the SM group.

In 2009, Taal Vista Hotel's newly constructed east wing with 133 guest rooms (making it a total of 261 rooms) and a 1,000-seater ballroom became fully operational. SMX, located at Mall of Asia Complex with its state of the art convention and exhibition facilities, continues to host major internal and local conventions and exhibitions. It is a three-storey structure with a gross floor area of 46,647 square metres made up of two large exhibit floors which can be divided into multiple exhibition and function halls.

In the last quarter of 2010, SM Hotels launched the 400-room Radisson Blu Hotel in Cebu, the first hotel managed by Carlson International in Asia-Pacific region to be classified under its "Blu" upscale hotel brand category. The property has been classified as a deluxe hotel category by the Department of Tourism and its facilities include an in-house spa, fitness center, business center, 800-square meter swimming pool, club lounge, 2 ballrooms and a number of smaller meeting rooms. It is strategically located beside SM City Cebu and is adjacent to the International Port Area.

In July of 2011, Pico Sands Hotel opened, a 154 room resort-type hotel in Hamilo Coast in Nasugbu, Batangas.

SM Hotels is currently developing Park Inn by Radisson Davao which will be the very first "Park Inn by Radisson" in the Asia Pacific region. The Park Inn brand is one of the hotel brands under Carlson and is the largest mid-market brand for hotels under development in Europe. Park Inn by Radisson Davao hotel project is approximately a 204-room hotel located in Lanang, Davao City. The hotel is scheduled to open in the first quarter of 2013.

Others

Atlas Consolidated Mining & Development Corporation ("Atlas") was incorporated as Masbate Consolidated Mining Company, Inc. on March 9, 1935 as a result of the merger of assets and equities of three pre-war mining companies, namely Masbate Consolidated Mining Company, Inc., Antamok Goldfields Mining Company and IXL Mining Company. Thereafter, it amended its Articles of Incorporation to reflect its present corporate name. Atlas is engaged in mineral and metallic mining, exploration and development and primarily produces cooper concentrate and gold with silver, magnetite and pyrites as major by-products.

Atlas' copper mining operations which started in 1955 are centered in Toledo City, Cebu where three main ore bodies (Lutopan, Carmen & Biga), two operating open pit mines (Lutopan & Carmen) and one milling complex (Carmen concentrator) are located. Atlas' revenues are currently derived from the sale of copper concentrates, gold, silver, pyrite, and magnetite from its Toledo Copper Mines production, nickel laterite ore in its Berong nickel operations, rental of some of its idle assets and proceeds from sale of scrap and excess materials.

A.vii Corporate Governance

The Company’s platform of governance remains rooted in its Manual on Corporate Governance and its Code of Ethics. The Manual on Corporate Governance (the “Manual”) institutionalizes the principles of good corporate governance throughout the organization. It lays down the Company’s compliance system and identifies the responsibilities of the Board of Directors (the “Board”) and management in relation to good corporate governance. The Manual also provides the policies on disclosure and transparency, the conduct of communication and training programs on corporate governance, the rights of all shareholders, and the protection of the interests of minority shareholders. Under the Manual, it is the Board’s responsibility to foster the long term success of the Company and secure its sustained competitiveness in a manner consistent with its fiduciary responsibility, which it shall exercise in the best interests of the Company, its shareholders and other stakeholders.

The Code of Ethics (the “Code”) serves as a guiding principle for the Company’s directors, officers and employees in the performance of their duties and responsibilities, and in their business transactions with investors, creditors, customers, contractors, suppliers, regulators, and the public. The Code also reflects the Company’s mission, vision and values statement. To align with the Code, the Company adopted policies on acceptance of gifts, insider trading, placement of advertisements, and guidelines on the Anti-Money Laundering Law. The Company continues to align itself with corporate governance best practices by developing policies on conflict of interest, related party transactions and enhancing its risk management systems.

Three (3) independent directors namely, Mr. Vicente S. Perez, Jr., Mr. Ah Doo Lim and Mr. Joseph R. Higdon, sit on the Board. The Company adopts the definition of independence under the Securities Regulation Code. The Company considers an independent director as one who, except for his director's fees and minimal qualifying shares, is independent of management and free from any business or other relationship which could reasonably be perceived to materially interfere with his exercise of independent judgement in carrying out his responsibilities as a director of the Company.

The Board is supported in its corporate governance functions by three (3) committees: the Compensation and Remuneration Committee, the Nomination Committee and the Audit and Risk Management Committee. The Compensation and Remuneration Committee is tasked to establish a formal and transparent procedure for developing policies on executive remuneration and for fixing the remuneration packages of officers and directors. The Nomination Committee evaluates all persons nominated to the Board in accordance with the Manual. The Audit and Risk Management Committee reviews and approves the Company's financial reports, performs oversight financial management functions, and evaluates and approves internal and external audit plans and oversees the effectiveness of the risk management program. All Board Committees have adopted their respective charters which identify the Committees' composition, roles and responsibilities, as culled from the Manual.

There have been no deviations from the Company's Manual on Corporate Governance since its adoption. The Company has adopted in the Manual the leading practices and principles on good corporate governance and has fully complied with all the requirements of the Manual for the year 2011.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

SM Investments Corporation (SMIC or Parent Company) was incorporated in the Philippines on January 15, 2010. On April 29, 2009, the shareholders approved the amendment of SMIC's articles of incorporation for another 50 years from January 15, 2010. Its registered office address is 10th Floor, One E-Com Center, Harbor Drive, Mall of Asia Complex, CBP-1A, Pasay City 1300.

The Parent Company and its subsidiaries (collectively referred to as the Group) and its associates are involved primarily in shopping mall development, retail, real estate development and tourism, hotels and conventions and financial services and others.

The Parent Company's shares of stock are publicly traded in the Philippine Stock Exchange.

The accompanying consolidated financial statements were authorized for issue by the Board of Directors (BOD) on March 7, 2012.

2. Basis of Preparation, Statement of Compliance and Changes in Accounting Policies

Basis of Preparation
The consolidated financial statements of the Group have been prepared on the historical cost basis, except for derivative financial instruments, investments held for trading and available-for-sale (AFS) investments, which have all been measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Group's functional and presentation currency under Philippine Financial Reporting Standards (PFRS). All values are rounded to the nearest thousand, except when otherwise indicated.

Statement of Compliance
The consolidated financial statements have been prepared in compliance with PFRS. PFRS includes statements named PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) issued by the Financial Reporting Standards Council (FRSC).

Changes in Accounting Policies
The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the following new and amended PFRS and Philippine Interpretations from IFRIC starting January 1, 2011, except when otherwise stated:

Amendments to Standards and Interpretations

- PAS 24 (Amendment), *Related Party Disclosures,* became effective for annual periods beginning on or after January 1, 2011.

- PAS 32 (Amendment), *Financial Instruments: Presentation*, became effective for annual periods beginning February 1, 2010.

- Philippine Interpretaion IFRIC 14 (Amendment), *Prepayments of a Minimum Funding Requirement*, became effective for annual periods beginning January 1, 2011.

- Philippine Interpretation IFIRC 19, *Extinguising Financial Liabilities with Equity Instruments*, became effective for annual periods beginning July 1, 2010.

The above standards have no impact on the Group's consolidated financial statements.

Improvements to PFRSs (Issued 2010)
An omnibus of amendments to standards, deal primarily with a view to removing inconsistencies and clarifying wordings. The adoption of the following amendments resulted in changes to accounting policies but did not have material impact on the financial position or performance of the Group.

- PFRS 3, *Business Combinations*. The measurement options available for non-controlling interest (NCI) were amended. Only components of NCI that constitute a present ownership interest that entitles their holder to a proportionate share of the entity's net assets in the event of liquidation should be measured at either fair value or at the present ownership instruments' proportionate share of the acquiree's identifiable net assets. All other components are to be measured at their acquisition date fair value.

  The amendments to PFRS 3 are effective for annual periods beginning on or after July 1, 2010. The Group, however, adopted these as of January 1, 2011 and changed its accounting policy accordingly as the amendment was issued to eliminate unintended consequences that may arise from the adoption of PFRS 3.

- PFRS 7, *Financial Instruments – Disclosures*, effective January 1, 2011, intended to simplify the disclosures provided by reducing the volume of disclosures around collateral held and improving disclosures by requiring qualitative information to put the quantitative information in context. This amendment is applicable for annual periods beginning on or after July 1, 2010.

- PAS 1, *Presentation of Financial Statements*, effective January 1, 2011, clarifies that an entity may present an analysis of each component of other comprehensive income maybe either in the statement of changes in equity or in the notes to the financial statements. This has no significant impact on the Group's consolidated financial statements.

Other amendments resulting from improvements to PFRSs and interpretations to the following standard did not have any impact on the accounting policies, financial position or performance of the Group:

- PFRS 3, *Business Combinations* (Contingent consideration arising from business combination prior to adoption of PFRS 3 (as revised in 2008)), applicable for annual periods beginning on or after July 1, 2010
- PFRS 3, *Business Combinations* (Un-replaced and voluntarily replaced share-based payment awards), applicable for annual periods beginning on or after July 1, 2010
- PAS 27, *Consolidated and Separate Financial Statements*, applicable for annual periods beginning on or after July 1, 2010
- PAS 34, *Interim Financial Statements,* effective January 1, 2011

- Philippine Interpretation IFRIC 13, *Customer Loyalty Programmes (determining the fair value of award credits)*, effective January 1, 2011

Future Changes in Accounting Policies
The following are the issued standards, interpretations, amendments and improvements to PFRS and Philippine Interpretations but are not yet effective up to the date of issuance of the Group's consolidated financial statements. The Group intends to adopt the applicable standards, interpretations, amendments and improvements when these become effective.

New Standards and Interpretations

- PFRS 9, *Financial Instruments: Classification and Measurement*, PFRS 9 as issued reflects the first phase on the PAS 39, *Financial Instruments: Recognition and Measurement*, and applies to classification and measurement of financial assets and financial liabilities as defined in PAS 39. The standard is effective for annual periods beginning on or after 1 January 2015. In subsequent phases, hedge accounting and impairment of financial assets will be addressed with the completion of this project expected in 2012. The adoption of the first phase of PFRS 9 will have an effect on the classification and measurement of financial liabilities. The Group will quantify the effect in conjunction with the other phases, when issued, to present a comprehensive picture. As at December 31, 2011, the Group has decided not to early adopt PFRS 9 on its consolidated financial statements.

- PFRS 10, *Consolidated Financial Statements*, will become effective for annual periods beginning on or after January 1, 2013. PFRS 10 replaces the portion of PAS 27, *Consolidated and Separate Financial Statements*, that addresses the accounting for consolidated financial statements. It also includes the issues raised in Standing Interpretations Committee (SIC) 12, *Consolidation - Special Purpose Entities*. PFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by PFRS 10 will require management to exercise significant judgement to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in PAS 27. The Group is currently assessing the impact of this standard on its consolidated financial statements.

- PFRS 11, *Joint Arrangements*, will become effective for annual periods beginning on or after January 1, 2013. PFRS 11 replaces PAS 31, *Interests in Joint Ventures*, and SIC 13, *Jointly-controlled Entities - Non-monetary.Contributions by Venturers*. PFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture must be accounted for using the equity method. The Group does not expect this amendment to have a significant impact on its consolidated financial statements.

- PFRS 12, *Disclosure of Involvement with Other Entities*, will become effective for annual periods beginning on or after January 1, 2013. PFRS 12 includes all of the disclosures that were previously in PAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in PAS 31 and PAS 28, *Investments in Associates*. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. The Group is currently assessing the impact of this standard on its consolidated financial statements.

- PFRS 13, *Fair Value Measurement*, will become effective for annual periods beginning on or after January 1, 2013. PFRS 13 establishes a single source of guidance under PFRS for all fair value measurements. PFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under PFRS when fair value is required or permitted. The Group is currently assessing the impact that this standard on its consolidated financial statements.

- Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*, covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The interpretation requires that revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on stage of completion. Contracts involving provision of services with the construction materials and where the risks and reward of ownership are transferred to the buyer on a continuous basis will also be accounted for based on stage of completion. The Securities and Exchange Commission (SEC) and the FRSC have deferred the effectivity of this interpretation until the final revenue standard is issued by International Accounting Standards Board (IASB) and an evaluation of the requirements of the final revenue standard against the practices of the Philippine real estate industry is completed. The Group is in the process of quantifying the impact of this new interpretation on its consolidated financial statements

- Philippine Interpretation IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine*, will become effective beginning on or after January 1, 2013. IFRIC 20 applies to waste removal costs that are incurred in surface mining activity during the production phase of the mine ("production stripping costs") and provides guidance on the recognition of production stripping costs as an asset and measurement of the stripping activity asset. The Group does not expect this interpretation to have a significant impact on its consolidated financial statements.

Amendments to Standards and Interpretation

- PAS 1, *Financial Statement Presentation* (Amendment) - *Presentation of Items of Other Comprehensive Income*, will become effective for annual periods beginning on or after July 1, 2012. The amendments to PAS 1 change the grouping of items presented in other comprehensive income. Items that could be reclassified (or 'recycled') to profit or loss at a future point in time (for example, upon derecognition or settlement) would be presented separately from items that will never be reclassified. The amendment affects presentation only and has no impact on the Group's consolidated financial statements.

- PAS 12, *Income Taxes* (Amendment) - *Deferred Tax: Recovery of Underlying Assets*, will become effective for annual periods beginning on or after January 1, 2012. It provides a practical solution to the problem of assessing whether recovery of an asset will be through use or sale. It introduces a presumption that recovery of the carrying amount of an asset will normally be through sale. The Group does not expect this amendment to have a significant impact on its consolidated financial statements.

- PAS 19, *Employee Benefits* (Amendment), will become effective for annual periods beginning on or after January 1, 2013. Amendment includes removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and re-wording. The Group is currently assessing the impact of the amendments.

- PAS 27, *Separate Financial Statements* (Amendment), as revised in 2011 will become effective for annual periods beginning on or after January 1, 2013. As a consequence of the new PFRS 10 and PFRS 12, what remains of PAS 27 is limited to accounting for subsidiaries, jointly controlled entities, and associates in separate financial statements. The Group does not present separate financial statements. The Group does not expect this amendment to have a significant impact on its parent financial statements.

- PAS 28, *Investments in Associates and Joint Venture* (Amendment), as revised in 2011 will become effective for annual periods beginning on or after January 1, 2013. As a consequence of the new PFRS 11 and PFRS 12, PAS 28 has been renamed PAS 28 *Investments in Associates and Joint Ventures*, and describes the application of the equity method to investments in joint ventures in addition to associates. The Group does not expect this amendment to have a significant impact on its consolidated financial statements.

- PFRS 7, *Financial Instruments: Disclosures* (Amendment) - *Enhanced Derecognition Disclosure Requirements*, will become effective for annual periods beginning on or after July 1, 2011. The amendment requires additional disclosure about financial assets that have been transferred but not derecognised to enable the user of the Group's financial statements to understand the relationship with those assets that have not been derecognised and their associated liabilities. In addition, the amendment requires disclosures about continuing involvement in derecognized assets to enable the user to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets. The Group does not expect this amendment to have a significant impact on its consolidated financial statements.

Basis of Consolidation

Basis of consolidation from January 1, 2011. The consolidated financial statements comprise the financial statements of the Parent Company and all of its subsidiaries as at December 31, 2011.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Non-controlling interests represent the portion of profit or loss, other comprehensive income and net assets not held by the Group and are presented separately in the consolidated statements of income, consolidated statements of comprehensive income and within equity section in the consolidated balance sheets, separately from equity attributable to owners of the Parent.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any non-controlling interest;
- Derecognizes the cumulative translation differences recorded in equity;
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained;
- Recognizes any surplus or deficit in profit or loss;

- Reclassifies the Parent Company's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Basis of consolidation prior to January 1, 2010. Certain of the above-mentioned requirements were applied on a prospective basis. The following differences, however, are carried forward in certain instances from the previous basis of consolidation:

Acquisitions of non-controlling interest, prior to January 1, 2010, were accounted for using the parent entity extension method, whereby, the difference between the consideration and the book value of the share of the net assets acquired were recognized as goodwill.

Losses applicable to the non-controlling interest in a consolidated subsidiary may exceed the non-controlling interest in the subsidiary's equity. The excess, and any further losses applicable to the non-controlling interest, are allocated against the controlling interest except to the extent that the non-controlling interest has a binding obligation and is able to make an additional investment to cover the losses. If the subsidiary subsequently reports profits, such profits are allocated to the controlling interest until the non-controlling interest's share of losses previously absorbed by the controlling has been recovered. Losses prior to January 1, 2010 were not reallocated between non-controlling interest and owners of the Parent.

The Group accounts for its interest in the investee using the equity method until it loses control. The income and expenses of a subsidiary are included in the consolidated financial statements until the date on which the Group ceases to control the subsidiary. The difference between the proceeds from the disposal of the subsidiary and its carrying amount as of the date of disposal, including the cumulative amount of any exchange differences that relate to the subsidiary recognized in equity, is recognized in the consolidated statements of income as gain or loss on the disposal of the subsidiary.

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries:

SM Prime

On September 3, 2009, SM Land (China) Limited (SM Land China) further completed the acquisition of 100% ownership of Alpha Star Holdings Limited (Alpha Star) from Grand China International Limited (Grand China) (see Note 5).

On October 14, 2010, SM Prime has undergone an international placement and engaged into a Placement Agreement with SM Land (Selling Shareholder) and CLSA Limited and Macquarie Capital (Singapore) Pte. Limited (the “Joint Bookrunners”). As stated in the Placement Agreement, SM Land shall sell its 569.6 million SM Prime common shares (the “Sale Shares”) with a par value of ₱1.00 per share at ₱11.50 (Offer Price) per share to the Joint Bookrunners, or to investors that the Joint Bookrunners may procure outside the Philippines (the “International Placement”).

Contemporaneous with the signing of the Placement Agreement, SM Prime likewise entered into a Subscription Agreement with SM Land, where the latter will not directly receive any proceeds from the International Placement but has conditionally agreed to subscribe for new SM Prime common shares (out of its authorized but unissued capital stock) in an amount equal to the aggregate number of the Sale Shares sold by SM Land at a subscription price of ₱11.50 per share, which is equal to the Offer Price of the Sale Shares.

SM Land was able to sell through the Joint Bookrunners the total Sale Shares of 569.6 million SM Prime common shares. Likewise, SM Land subscribed for and SM Prime issued to SM Land the same number of new SM Prime common shares.

The placement and subscription agreements resulted in a 3% decrease in total direct and indirect ownership of the Group over SM Prime.

Sanford_Marketing Corporation

In January 2010, Supervalue, Inc. (SVI) transferred 20 of its operating SaveMore stores to Sanford. The transfer includes assignment of SVI’s rights and obligations arising from certain contracts entered into by SVI for the benefit of the transferred stores. Any related assets and liabilities arising from the transfers were taken up in Sanford’s 2010 statutory financial statements.

SM Land

In June 2010, SM Land transferred 251.6 million SM Prime shares for ₱10.75 per share or for a total cost of ₱2,704.6 million to the Parent Company. The transfer resulted in an increase of 1.89% in SMIC’s ownership over SM Prime, with a corresponding decrease in SM Land’s ownership interest in the latter by 1.26%.

SMDC

In 2010, SMDC acquired Vancouver Lands, Inc. (VLI) for ₱566.6 million and became its wholly owned subsidiary (see Note 16).

In January and October 2010, SMDC had a stock rights offering to eligible existing common shareholders of SMDC at the proportion of one rights share for every three existing common shares held as of record date, at an offer price of ₱3.50 and ₱6.38 per rights share, respectively.

SMIC acquired a total of 4.04 million additional SMDC shares for a total cost of ₱20.8 million. The availment of additional shares from the said offering did not result to a change in ownership interest of SMIC in SMDC.

SM Land acquired a total of 2,114.5 million additional SMDC shares for a total cost of ₱10,840.0 million, a fraction of which amounting to 32.9 million SMDC shares or a total cost of ₱115.2 million was purchased by SM Land from the unsubscribed portion of the aggregate stock rights offered by SMDC. The availment of additional shares resulted to a 0.6% increase in SM Land's interest in SMDC.

MH Holdings
In 2010, MH Holdings (a subsidiary of SM Retail) invested ₱72.0 million or an equivalent of 60% interest in a newly incorporated company in the Philippines, Forever Agape & Glory, Inc. (Forever Agape). Consequently, Forever Agape became a subsidiary of MH Holdings.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these estimates and assumptions could result in outcomes that could require a material adjustment to the carrying amount of the affected asset or liability in the future.

Judgments
In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Functional Currency. The Parent Company has determined that its functional currency is the Philippine peso. It is the currency of primary economic environment in which the Parent Company operates.

Revenue Recognition on Real Estate. Selecting an appropriate revenue recognition method for a particular real estate sales transaction requires certain judgments based on the buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment and completion of development. The buyer's commitment is evaluated based on collections, credit standing of the buyer and location of the property. The completion of development is determined based on engineer's judgments and estimates on the physical portion of contract work done and the completion of development beyond the preliminary stage.

Consignment Arrangements on Retail Segment. The retail segment of the Group has entered into various consignment arrangements with suppliers. Under these arrangement, the risks and rewards over the goods remain with the suppliers until the goods are sold. Sales revenue is recognized at gross amount upon actual sales to customers. The related inventory stocks supplied under these arrangement are only payable to suppliers when actually sold.

Operating Lease Commitments - Group as Lessor. The Group has entered into commercial property leases in its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of the properties and thus accounts for the contracts as operating leases.

Rent income amounted to ₱20,472.8 million, ₱17,904.7 million and ₱15,722.1 million for the years ended December 31, 2011, 2010 and 2009, respectively (see Note 15).

Operating Lease Commitments - Group as Lessee. The Group has entered into various lease agreements as a lessee. Management has determined that all the significant risks and benefits of ownership of these properties, which the Group leases under operating lease arrangements, remain with the lessor. Accordingly, the leases were accounted for as operating leases.

Rent expense amounted to ₱3,463.6 million, ₱3,016.0 million and ₱2,309.1 million for the years ended December 31, 2011, 2010 and 2009, respectively (see Note 24).

Classifying Held-to-Maturity (HTM) Investments. The classification to HTM investments requires significant judgment. In making this judgment, the Group evaluates its intention and ability to hold such investments to maturity. If the Group fails to keep these investments to maturity, it will be required to reclassify the entire portfolio as part of AFS investments. The investments would therefore be measured at fair value and not at amortized cost.

HTM investments as at December 31, 2011 and 2010 amounted to ₱200.0 million and ₱500.0 million, respectively, with caption "Treasury bonds," included under "Other current assets" and "Other noncurrent assets" accounts in the consolidated balance sheets (see Notes 11 and 17).

Impairment of AFS Investments - Significant or Prolonged Decline in Fair Value. The Group determines that an AFS investment is impaired when there has been a significant or prolonged decline in the fair value below its cost. The Group determines that a decline in fair value of greater than 20% of cost is considered to be a significant decline and a decline for a period of more than twelve months is considered to be a prolonged decline. The determination of what is significant or prolonged requires judgment. In making this judgment, the Group evaluates, among other factors, the normal volatility in price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

There was no allowance for impairment loss made on AFS investments for the years ended December 31, 2011 and 2010. The carrying values of AFS investments amounted to ₱13,935.4 million and ₱12,660.5 million as at December 31, 2011 and 2010, respectively (see Note 12).

<u>Estimates and Assumptions</u>
The key assumptions concerning the future and other key sources of estimation uncertainty at reporting period that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Impairment of Receivables. The Group maintains an allowance for impairment loss at a level considered adequate to provide for potential uncollectible receivables. The level of allowance is evaluated by the Group on the basis of factors that affect the collectibility of the accounts. These factors include, but are not limited to, the length of the Group's relationship with the customers and counterparties, average age of accounts and collection experience. The Group performs a regular review of the age and status of these accounts, designed to identify accounts with objective evidence of impairment and provide the appropriate allowance for doubtful accounts. The review is accomplished using a combination of specific and collective assessment. The amount and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different methodologies. An increase in allowance for impairment loss would increase the recorded selling, general and administrative expenses and decrease current and noncurrent assets.

Allowance for impairment loss amounted to ₱17.1 million and ₱18.2 million as at December 31, 2011 and 2010, respectively. Receivables, including noncurrent portion of receivables from real estate buyers, advances and other receivables included under “Other current assets” account and receivable from a related party and long-term notes included under “Other noncurrent assets” account, amounted to ₱35,827.1 million and ₱26,847.7 million as at December 31, 2011 and 2010, respectively (see Notes 10, 11 and 17).

Impairment of AFS Investments - Calculation of Impairment Losses. The computation for the impairment of AFS debt instruments requires an estimation of the present value of the expected future cash flows and the selection of an appropriate discount rate. In the case of AFS equity instruments, the Group expands its analysis to consider changes in the investee’s industry and sector performance, legal and regulatory framework, changes in technology and other factors that affect the recoverability of the Group’s investments.

Allowance for impairment loss amounted to ₱45.1 million as of December 31, 2011 and 2010. The carrying values of AFS investments amounted to ₱13,935.4 million and ₱12,660.5 million as of December 31, 2011 and 2010, respectively (see Note 12).

Net Realizable Value of Merchandise Inventories, Condominium Units for Sale, Club Shares for Sale and Land and Development. The Group writes down merchandise inventories, condominium units for sale, club shares for sale and land and development to net realizable value, through the use of an allowance account, whenever the net realizable value of the assets become lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes.

Estimates of net realizable value are based on the most reliable evidence available at the time the estimates are made of the amount the assets are expected to be realized. These estimates take into consideration fluctuations of price or cost directly relating to events occurring after reporting period to the extent that such events confirm conditions existing at reporting period.

The allowance account is reviewed on a regular basis to reflect the accurate valuation in the financial records.

In 2011 and 2010, the Group assessed that the net realizable values of merchandise inventories, condominium units for sale, club shares for sale and land and development are higher than cost, hence, the Group did not recognize any losses on write down of the assets. The carrying values of merchandise inventories amounted to ₱13,436.5 million and ₱10,485.9 million as at December 31, 2011 and 2010, respectively (see Note 23). The carrying values of condominium units for sale included under “Other current assets” account amounted to ₱1,115.9 million and ₱1,531.5 million as at December 31, 2011 and 2010, respectively (see Note 11). The carrying values of club shares for sale included under “Other current assets” account amounted to ₱856.2 million and ₱918.8 million as at December 31, 2011 and 2010, respectively (see Note 11). The carrying values of land and development amounted to ₱23,012.4 million and ₱19,703.6 million as at December 31, 2011 and 2010, respectively (see Note 16).

Estimated Useful Lives of Property and Equipment and Investment Properties. The useful life of each of the Group’s property and equipment and investment properties is estimated based on the period over which the asset is expected to be available for use. Such estimation is based on a collective assessment of industry practice, internal technical evaluation and experience with similar assets. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limitations on the use of the asset. It is possible, however, that future financial performance could be materially affected by changes in the amounts and timing of recorded expenses brought about by changes in the factors mentioned above. A reduction in the estimated useful life of any property and equipment and investment properties would increase the recorded selling, general and administrative expenses and decrease noncurrent assets.

The total carrying values of property and equipment and investment properties amounted to ₱146,368.3 million and ₱127,035.8 million as at December 31, 2011 and 2010, respectively (see Notes 14 and 15).

Impairment of Investments in Shares of Stock of Associates. Impairment review of investments in shares of stock of associates is performed when events or changes in circumstances indicate that the carrying value may not be recoverable. This requires management to make an estimate of the expected future cash flows from the investments and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Allowance for impairment loss amounted to ₱4,367.7 million as of December 31, 2011 and 2010. The carrying values of investments in shares of stock of associates amounted to ₱88,367.9 million and ₱70,860.2 million as at December 31, 2011 and 2010, respectively (see Note 13).

Impairment of Other Nonfinancial Assets. The Group assesses at each reporting date whether there is an indication that an item of property and equipment and investment properties may be impaired. Determining the value of the assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires the Group to make estimates and assumptions that can materially affect the consolidated financial statements. Future events could cause the Group to conclude that these assets are impaired. Any resulting impairment loss could have a material impact on the financial position and performance of the Group.

The preparation of the estimated future cash flows involves judgment and estimations. While the Group believes that its assumptions are appropriate and reasonable, significant changes in these assumptions may materially affect the Group's assessment of recoverable values and may lead to future additional impairment charges.

Allowance for impairment loss amounted ₱923.3 million and ₱799.7 million as at December 31, 2011 and 2010, respectively (see Note 15). The total carrying values of property and equipment and investment properties amounted to ₱146,368.3 million and ₱127,035.8 million as at December 31, 2011 and 2010, respectively (see Notes 14 and 15).

Impairment of Goodwill, Trademarks and Brand Names with Indefinite Useful Lives. The Group's impairment test for goodwill, trademarks and brand names is based on value in use calculations that use a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the assets. The recoverable amount is most sensitive to the pre-tax discount rates used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes. The key assumptions used to determine the recoverable amount for the different cash generating units are further discussed in Note 17.

The carrying values of goodwill, trademarks and brand names amounted to ₱15,354.2 million as at December 31, 2011 and 2010, respectively (see Note 17).

Purchase Price Allocation in Business Combinations. The acquisition method requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets and liabilities at acquisition date. It also requires the acquirer to recognize goodwill. The Group's acquisitions have resulted in goodwill and separate recognition of trademarks and brand names with indefinite lives.

The total carrying values of goodwill and trademarks and brand names with indefinite useful lives arising from business combinations amounted to ₱15,354.2 million as at December 31, 2011 and 2010, respectively (see Note 17).

Realizability of Deferred Tax Assets. The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. The Group's assessment on the recognition of deferred tax assets on deductible temporary differences and carryforward benefits of excess minimum corporate income tax (MCIT) and net operating loss carryover (NOLCO) is based on the projected taxable income in future periods. Based on the projection, not all deductible temporary differences and carryforward benefits of excess MCIT and NOLCO will be realized. Consequently, only a portion of the Group's deferred tax assets was recognized.

Deferred tax assets recognized in the consolidated balance sheets as at December 31, 2011 and 2010 amounted to ₱694.6 million and ₱576.4 million, respectively, while the unrecognized deferred tax assets amounted to ₱1,590.2 million and ₱1,295.3 million as at December 31, 2011 and 2010, respectively (see Note 27).

Present Value of Defined Benefit Obligation. The present value of the pension obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost for pensions include, among others, discount rate, expected rate of return on plan assets and rate of salary increase. Actual results that differ from the Group's assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded obligation in such future periods.

The assumption of the expected return on plan assets is determined on a uniform basis, taking into consideration the long-term historical returns, asset allocation and future estimates of long-term investment returns.

The Group determines the appropriate discount rate at the end of each reporting period. It is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates on government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Other key assumptions for pension obligations are based in part on current market conditions.

While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Group's pension and other pension obligations.

The Group has a net cumulative unrecognized actuarial gain amounting to ₱453.7 million and ₱729.6 million as at December 31, 2011 and 2010, respectively (see Note 26). The Group's defined benefit asset amounted to ₱398.9 million and ₱302.2 million as at December 31, 2011 and

2010, respectively (see Notes 17 and 26). While the Group's defined benefit liability amounted to ₱76.5 million and ₱178.3 million as at December 31, 2011 and 2010, respectively (see Note 26).

Fair Value of Financial Assets and Liabilities. The Group carries certain financial assets and liabilities at fair value, which requires extensive use of accounting judgments and estimates. The significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates). The amount of changes in fair value would differ if the Group utilized different valuation methodologies and assumptions. Any changes in the fair value of these financial assets and liabilities would directly affect profit or loss and other comprehensive income.

The fair value of financial assets and liabilities are discussed in Note 30.

Contingencies. The Group is currently involved in legal and administrative proceedings. The Group's estimate of the probable costs for the resolution of these proceedings has been developed in consultation with outside legal counsel handling defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on its financial position and performance. It is possible, however, that future financial performance could be materially affected by changes in the estimates or in the effectiveness of strategies relating to these proceedings. No accruals were made in relation to these proceedings (see Note 32).

4. Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from acquisition date and are subject to an insignificant risk of change in value.

Time Deposits and Short-term Investments

Time deposits and short-term investments are cash placements, shown under current assets, with original maturities of more than three months but less than one year. Time deposits which will mature twelve months after the reporting period are presented under noncurrent assets.

Financial Instruments - Initial Recognition and Subsequent Measurement

Date of Recognition. The Group recognizes a financial asset or a financial liability in the consolidated balance sheets when it becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial assets, recognition and derecognition, as applicable, is done using settlement date accounting. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place. Derivatives are recognized on a trade date basis.

Initial Recognition of Financial Instruments. Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those classified as fair value through profit or loss (FVPL), includes transaction cost.

Subsequent to initial recognition, the Group classifies its financial instruments in the following categories: financial assets and financial liabilities at FVPL, loans and receivables, HTM investments, AFS investments and other financial liabilities. The classification depends on the purpose for which the instruments are acquired and whether they are quoted in an active market. Management determines the classification at initial recognition and, where allowed and appropriate, re-evaluates this classification at every reporting date.

Determination of Fair Value. The fair value of financial instruments traded in active markets at reporting period is based on their quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. When current bid and asking prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, options pricing models and other relevant valuation models.

Day 1 Difference. Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a Day 1 difference) in the consolidated statements of income unless it qualifies for recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statements of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the Day 1 difference amount.

Financial Assets and Liabilities at FVPL. Financial assets and liabilities at FVPL include financial assets and liabilities held for trading and financial assets and liabilities designated upon initial recognition as at FVPL.

Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Gains or losses on investments held for trading are recognized in the consolidated statements of income under “Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives - net” account. While interest income earned on investments held for trading are recognized in “Interest income” account in the consolidated statements of income.

Financial assets may be designated by management at initial recognition as FVPL when any of the following criteria is met:

- the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or recognizing gains or losses on a different basis; or

- the assets are part of a group of financial assets, financial liabilities or both which are managed and their performance are evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or

- the financial instrument contains an embedded derivative, unless the embedded derivative does not significantly modify the cash flows or it is clear, with little or no analysis, that it would not be separately recorded.

The Group’s investments held for trading and derivative assets are classified as financial assets under this category, while the Group’s derivative liabilities arising from issuance of convertible bonds and derivative financial instruments with negative fair values are also included as financial liabilities under this category (see Note 30).

Loans and Receivables. Loans and receivables are nonderivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not designated as AFS investments or financial assets at FVPL. Loans and receivables are included in current assets if realizability or collectibility is within twelve months from reporting period. Otherwise, these are classified as noncurrent assets.

After initial measurement, loans and receivables are subsequently measured at amortized cost using the effective interest method, less allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in the consolidated statements of income when the loans and receivables are derecognized and impaired, as well as through the amortization process.

The Group’s cash and cash equivalents, time deposits and short-term investments (including noncurrent portion) and receivables (including noncurrent portion of receivables from real estate buyers), advances and other receivables (included under “Other current assets” account), receivable from a related party and long-term notes (included under “Other noncurrrent assets” account) are classified under this category (see Note 30).

HTM Investments. HTM investments are quoted nonderivative financial assets with fixed or determinable payments and fixed maturities for which the Group’s management has the positive intention and ability to hold to maturity. Where the Group sells other than an insignificant amount of HTM investments, the entire category would be tainted and reclassified as AFS securities. After initial measurement, these investments are measured at amortized cost using the effective interest rate method, less impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. Gains and losses are recognized in the consolidated statements of income when the HTM investments are derecognized or impaired, as well as through the amortization process. Assets under this category are classified as current assets if maturity is within twelve months from reporting period and as noncurrent assets if maturity date is more than twelve months from reporting period.

The Group’s investment in quoted Philippine government treasury bonds are classified under this category (see Note 30).

AFS Investments. AFS investments are nonderivative financial assets that are designated in this category or are not classified in any of the other categories. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. Subsequent to initial recognition, AFS investments are carried at fair value in the consolidated balance sheets. Changes in the fair value of such assets are reported as net unrealized gain or loss on AFS investments in the consolidated statements of comprehensive income until the investment is derecognized or the investment is determined to be impaired. On derecognition or impairment, the cumulative gain or loss previously reported in consolidated statements of comprehensive income is transferred to the consolidated statements of income. Interest earned on holding AFS investments are recognized in the consolidated statements of income using the effective interest rate method. Assets under this category are classified as current assets if expected to be realized within twelve months from reporting period and as noncurrent assets if expected date of disposal is more than twelve months from reporting period.

The Group's investments in shares of stock, bonds and corporate notes, redeemable preferred shares and club shares are classified under this category. The current portion is included under "Investments held for trading and sale" account in the consolidated balance sheets (see Note 30).

Other Financial Liabilities. This category pertains to financial liabilities that are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations or borrowings.

Other financial liabilities are recognized initially at fair value and are subsequently carried at amortized cost, taking into account the impact of applying the effective interest rate method of amortization (or accretion) for any related premium, discount and any directly attributable transaction costs. Gains and losses on other financial liabilities are recognized in the consolidated statements of income when the liabilities are derecognized, as well as through the amortization process.

The Group's bank loans, accounts payable and other current liabilities, dividends payable, long-term debt and tenants' deposits and others are classified under this category (see Note 30).

<u>Classification of Financial Instruments Between Liability and Equity</u>
A financial instrument is classified as liability if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity; or
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Group does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

<u>Redeemable Preferred Shares</u>
In determining whether a preferred share is a financial liability or an equity instrument, the Group assesses the particular rights attaching to the share to determine whether it exhibits the fundamental characteristic of a financial liability. A preferred share that provides for mandatory redemption by the Group for a fixed or determinable amount at a fixed or determinable future date, or gives the holder the right to require the Group to redeem the instrument at or after a particular date for a fixed or determinable amount, is a financial liability.

The redeemable preferred shares of the Group exhibit the characteristics of a financial liability and are thus recognized as a liability under "Long-term debt" account in the consolidated balance sheets, net of transaction costs. The corresponding dividends on the shares are charged as interest expense in the consolidated statements of income.

Transaction costs are amortized over the maturity period of the preferred shares using the effective interest rate method.

Debt Issue Costs
Debt issue costs are deducted against long-term debt and are amortized over the terms of the related borrowings using the effective interest rate method.

Derivative Financial Instruments
The Group uses derivative financial instruments such as long-term currency swaps, foreign currency call options, interest rate swaps, foreign currency range options and non-deliverable forwards to hedge the risks associated with foreign currency and interest rate fluctuations (see Note 30). Derivative financial instruments, including bifurcated embedded derivatives, are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

The Group's derivative instruments provide economic hedges under the Group's policies but are not designated as accounting hedges. Consequently, any gains or losses arising from changes in fair value are taken directly to profit or loss for the year.

Embedded Derivative. An embedded derivative is a component of a hybrid (combined) instrument that also includes a nonderivative host contract with the effect that some of the cash flows of the combined instrument vary, in a way similar to a stand-alone derivative. The Group assesses whether embedded derivatives are required to be separated from host contracts when the Group first becomes a party to the contract. An embedded derivative is separated from the host contract and accounted for as a derivative if all of the following conditions are met: a) the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract; b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and c) the hybrid or combined instrument is not recognized at FVPL.

Subsequent reassessment is prohibited unless there is change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract, in which case reassessment is required. The Group determines whether a modification to cash flows is significant by considering the extent to which the expected future cash flows associated with embedded derivative, the host contract or both have changed and whether the change is significant relative to the previously expected cash flow on the contract.

Options arising from the Parent Company's investment in bonds and convertible bonds payable are the Group's bifurcated embedded derivatives (see Notes 12 and 20).

Derecognition of Financial Assets and Liabilities

Financial Assets. A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or

- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Impairment of Financial Assets
The Group assesses at each reporting period whether a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired, if and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (an incurred loss event) and that loss event has an impact on the estimated future cash flows of the financial asset or a group of financial assets that can be reliably estimated. Objective evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial Assets Carried at Amortized Cost. The Group first assesses whether objective evidence of impairment exists for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in the collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset shall be reduced through the use of an allowance account. The amount of the loss shall be recognized in the consolidated statements of income. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans and receivables together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral, if any, has been realized or has been transferred to the Group. If, in a subsequent period, the amount of the impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or decreased by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognized in the consolidated statements of income under “Other revenue” account.

Financial Assets Carried at Cost. If there is objective evidence that an impairment loss has been incurred in an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

AFS Investments. The Group assesses at each reporting period whether there is objective evidence that an investment or a group of investments is impaired. In the case of equity investments classified as AFS investments, an objective evidence of impairment would include a significant or prolonged decline in the fair value of the investments below its cost. Significant decline in fair value is evaluated against the original cost of the investment, while prolonged decline is assessed against the periods in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss, is measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the consolidated statements of income, is removed from the consolidated statements of comprehensive income and recognized in the consolidated statements of income. Impairment losses on equity investments are not reversed through the consolidated statements of income; increases in fair value after impairment are recognized directly in the consolidated statements of comprehensive income.

In the case of debt instruments classified as AFS investments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. Future interest income is based on the reduced carrying amount of the asset and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. Such accrual is recorded as part of “Interest income” account in the consolidated statements of income. If, in subsequent year, the fair value of a debt instrument increased and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statements of income, the impairment loss is reversed through the consolidated statements of income.

<u>Offsetting Financial Instruments</u>
Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheets if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented at gross in the consolidated balance sheets.

<u>Merchandise Inventories</u>
Merchandise inventories are valued at the lower of cost and net realizable value. Cost, which includes all costs directly attributable to acquisition, such as purchase price and transport costs, is primarily determined using the weighted average method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

<u>Land and Development, Condominium Units for Sale and Club Shares for Sale</u>
Land and development, condominium units for sale (included under “Other current assets” account in the consolidated balance sheets) and club shares for sale (included under “Other current

assets" account in the consolidated balance sheets) are stated at the lower of cost and net realizable value. Net realizable value is the selling price in the ordinary course of business, less costs to complete and the estimated cost to make the sale. Cost includes those costs incurred for development and improvement of the properties.

Investments in Shares of Stock of Associates

The Group's investments in shares of stock of associates are accounted for under the equity method of accounting. An associate is an entity in which the Group has significant influence and which is neither a subsidiary nor a joint venture.

Under the equity method, investment in an associate is carried in the consolidated balance sheets at cost plus post-acquisition changes in the Group's share in net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortized. After application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's net investment in the associate. The consolidated statements of income reflect the share in the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Group recognizes its share in any changes and discloses this, when applicable, in the consolidated statements of comprehensive income. Profits and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

An investment in an associate is accounted for using the equity method from the date when it becomes an associate. On acquisition of the investment, any difference between the cost of the investment and the investor's share in the net fair value of the associate's identifiable assets, liabilities and contingent liabilities is accounted for as follows:

a. goodwill relating to an associate is included in the carrying amount of the investment. However, amortization of that goodwill is not permitted and is therefore not included in the determination of the Group's share in the associate's profits or losses.

b. any excess of the Group's share in the net fair value of the associate's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Group's share in the associate's profit or loss in the period in which the investment is acquired.

Also, appropriate adjustments to the investor's share of the associate's profit or loss after acquisition are made to account for the depreciation of the depreciable assets based on their fair values at the acquisition date and for impairment losses recognized by the associate, such as for goodwill or property, plant and equipment.

The Group discontinues the use of equity method from the date when it ceases to have significant influence over an associate and accounts for the investment in accordance with PAS 39, from that date, provided the associate does not become a subsidiary or a joint venture as defined in PAS 31. When the Group's interest in an investment in associate is reduced to zero, additional losses are provided only to the extent that the Group has incurred obligations or made payments on behalf of the associate to satisfy obligations of the investee that the Group has guaranteed or otherwise committed. If the associate subsequently reports profits, the Group resumes recognizing its share of the profits if it equals the share of net losses not recognized.

The financial statements of the associates are prepared for the same reporting period as the Parent Company. The accounting policies of the associates conform to those used by the Group for like transactions and events in similar circumstances.

Property and Equipment
Property and equipment, except land, is stated at cost less accumulated depreciation and amortization and any accumulated impairment in value. Such cost includes the cost of replacing part of the property and equipment at the time that cost is incurred, if the recognition criteria are met, and excludes the costs of day-to-day servicing. Land is stated at cost less any impairment in value.

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs necessary in bringing the asset to its working condition and location for its intended use. Cost also includes any related asset retirement obligation and interest incurred during the construction period on funds borrowed to finance the construction of the projects. When each major inspection is performed, its cost is recognized in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied. Expenditures incurred after the item has been put into operation, such as repairs, maintenance and overhaul costs, are normally recognized as expense in the period such costs are incurred. In situations where it can be clearly demonstrated that the expenditures have improved the condition of the asset beyond the originally assessed standard of performance, the expenditures are capitalized as additional cost of property and equipment.

Depreciation and amortization are calculated on a straight-line basis over the following estimated useful lives of the assets:

Buildings, condominium units and improvements	5–25 years
Store equipment and improvements	5–10 years
Data processing equipment	5 years
Furniture, fixtures and office equipment	3–10 years
Machinery and equipment	5–10 years
Leasehold improvements	5–10 years or term of the lease, whichever is shorter
Transportation equipment	5–10 years

The residual values, useful lives and method of depreciation and amortization of the assets are reviewed and adjusted, if appropriate, at each reporting period.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is credited or charged to current operations.

An item of property and equipment is derecognized when either it has been disposed or when it is permanently withdrawn from use and no future economic benefits are expected from its use or disposal. Any gains or losses arising on the retirement and disposal of an item of property and equipment are recognized in the consolidated statements of income in the period of retirement or disposal.

Investment Properties
Investment properties are measured initially at cost. The cost of a purchased investment property comprises of its purchase price and any directly attributable costs. Subsequently, investment properties, except land, are measured at cost, less accumulated depreciation and amortization and accumulated impairment in value. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met, and

excludes the costs of day-to-day servicing of an investment property. Land is stated at cost less any impairment in value.

Property under construction or development for future use as an investment property is classified as investment property.

Depreciation and amortization are calculated on a straight-line basis over the following estimated useful lives of the assets:

Land improvements	3–5 years
Land use rights	40–60 years
Buildings and improvements	10–35 years
Building equipment, furniture and others	3–15 years

The residual values, useful lives and method of depreciation and amortization of the assets are reviewed and adjusted, if appropriate, at each reporting period.

Investment property is derecognized when either it has been disposed or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statements of income in the period of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sell.

For a transfer from investment property to owner-occupied property or inventories, the cost of property for subsequent accounting is its carrying value at the date of change in use. If the property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Construction in Progress

Construction in progress represents structures under construction and is stated at cost. This includes cost of construction, property and equipment, and other direct costs. Cost also includes interest on borrowed funds incurred during the construction period. Construction in progress is not depreciated until such time that the relevant assets are completed and are ready for use.

Tenants’ Deposits

Tenants’ deposits are measured at amortized cost. Tenants’ deposits refers to security deposits received from various tenants upon inception of the respective lease contracts on the Group’s investment properties. At the termination of the lease contracts, the deposits received by the Group are returned to tenants, reduced by unpaid rental fees, penalties and/or deductions from repairs of damaged leased properties, if any. The related lease contracts usually have a term of more than twelve months.

Business Combinations

Business Combinations from January 1, 2011. Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Transaction costs incurred are expensed and included in "Selling, general and administrative expenses" in the consolidated statements of income.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with PAS 39 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Acquisition of Non-controlling Interests. Changes in the Parent Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e., transactions with owners in their capacity as owners). In such circumstances, the carrying amounts of the controlling and non-controlling interests shall be adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid shall be recognized directly in equity.

Business Combinations prior to January 1, 2010. Business combinations were accounted for using the purchase method, except for commonly controlled transactions, of which, an accounting similar to pooling of interest method is used. Business combinations under commonly controlled transactions are those in which all of the combining entities or businesses are controlled by the same party or parties both before and after the business combination, and that control is not transitory. For purchase method of accounting, the cost of acquisition is the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer, in exchange for control over the net assets of the acquired entity. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest was measured at the proportionate share of the acquiree's identifiable net assets. The identifiable assets, liabilities and contingent liabilities that satisfy certain recognition criteria have to be measured initially at their fair values at acquisition date, irrespective of the extent of any non-controlling interest. For accounting similar to pooling of interest method, the assets, liabilities and equity of the acquired companies for the reporting period in which the common control business combinations occur, and for any comparative periods presented, are included in the consolidated financial statements of the Group at their carrying amounts as if the combinations had occurred from the date when the acquired companies first became under the control of the Group. The excess of the cost of business combinations over the net carrying amounts of the assets and liabilities of the acquired companies is considered as "Equity adjustments from business combination" account in the equity section of the consolidated balance sheets.

Business combinations achieved in stages were accounted for as separate steps. Any additional acquired share of interest do not affect previously recognized goodwill.

When the Group acquired a business, embedded derivatives separated from the host contract by the acquiree were not reassessed on acquisition unless the business combination resulted in a change in the terms of the contract that significantly modified the cash flows that otherwise would have been required under the contract.

Contingent consideration was recognized if, and only if, the Group had a present obligation, the economic outflow was more likely than not and a reliable estimate was determinable. Subsequent adjustments to the contingent consideration were recognized as part of goodwill.

The acquisition of SM China Companies and Service Companies, were considered as business combination of companies under common control. Thus, the acquisitions were accounted for using an accounting similar to pooling of interests method.

Goodwill

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in consolidated statements of income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and

- not larger than an operating segment determined in accordance with PFRS 8, *Operating Segments*.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Goodwill is reviewed for impairment, annually or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units), to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognized. Where goodwill forms part of a cash-generating unit (group of cash-generating units) and part of the operation within that unit is disposed, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed and the portion of the cash-generating unit retained.

Excess of the fair values of acquired identifiable assets and liabilities of subsidiaries and associates over the acquisition cost of that interest, is credited directly to income. Transfers of assets between commonly controlled entities are accounted for under historical cost accounting.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

When subsidiaries are sold, the difference between the selling price and the net assets plus cumulative translation adjustments and goodwill is recognized in the consolidated statements of income.

Intangible Assets

The cost of trademarks and brand names acquired in a business combination is the fair value as at the date of acquisition. The Group assessed the useful life of the trademarks and brand names to be indefinite because based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate cash inflows for the Group.

Trademarks and brand names with indefinite useful lives are not amortized but are tested for impairment annually either individually or at the cash generating unit level. The useful life of an intangible asset is assessed as indefinite if it is expected to contribute net cash inflows indefinitely and is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statements of income when the asset is derecognized.

Impairment of Nonfinancial Assets

The carrying values of property and equipment, investment properties and investments in shares of stock of associates are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists, and if the carrying value exceeds the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amounts. The recoverable amount of the asset is the greater of fair value less costs to sell or value in use. The fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's-length transaction between knowledgeable, willing parties, less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the consolidated statements of income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment loss may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in consolidated statements of income. After such a reversal, the depreciation or amortization charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Capital Stock

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value, if any, are recognized as additional paid-in capital.

Revenue

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding discounts, rebates and sales taxes or duties. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as a principal or as an agent. The Group has concluded that it is acting as principal in majority of its revenue arrangements. The following specific recognition criteria must also be met before revenue is recognized:

Sale of Merchandise Inventories. Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, which is normally upon delivery. Sales returns and sales discounts are deducted from sales to arrive at net sales shown in the consolidated statements of income.

Sale of goods under consignment arrangements with suppliers is recognized as revenue upon billing, delivery and transfer of goods to customers.

Sale of Real Estate. The Group assesses whether it is probable that the economic benefits will flow to the Group when the sales prices are collectible. Collectibility of the contract price is demonstrated by the buyer's commitment to pay, which is supported by the buyer's initial and continuous investments that motivates the buyer to honor its obligation. Collectibility is also assessed by considering factors such as collections, credit standing of the buyer and location of the property.

Revenue from sales of completed real estate projects is accounted for using the full accrual method. In accordance with Philippine Interpretations Committee Q&A No. 2006-01, the percentage-of-completion method is used to recognize income from sales of projects where the Group has material obligations under the sales contract to complete the project after the property is sold, the equitable interest has been transferred to the buyer, construction is beyond preliminary stage (i.e., engineering, design work, construction contracts execution, site clearance and preparation, excavation and the building foundation are finished), and the costs incurred or to be incurred can be measured reliably. Under this method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated completion of a physical proportion of the contract work.

Any excess of collections over the recognized receivables are included in the "Tenants' deposits and others" account in the consolidated balance sheets. If any of the criteria under the full accrual or percentage-of-completion method is not met, the deposit method is applied until all the conditions for recording a sale are met. Pending recognition of sale, cash received from buyers are presented under the "Tenants' deposits and others" account in the consolidated balance sheets.

Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works.

Revenue from construction contracts included in the “Revenue from real estate and others” account in the consolidated statements of income is recognized using the percentage-of-completion method, measured principally on the basis of the estimated physical completion of the contract work.

For income tax purposes, full recognition is applied when at least 25% of the selling price has been collected in the year of sale. Otherwise, the installment method is applied.

Sale of Club Shares for Sale. Revenue is recognized when the significant risks and rewards of ownership of the club shares for sale have passed to the buyer, which is normally upon delivery of such.

Rent. Revenue is recognized on a straight-line basis over the lease term or based on the terms of the lease as applicable.

Sale of Cinema and Amusement Tickets. Revenue is recognized upon receipt of cash from the customer which coincides with the rendering of services.

Gain on Sale of Investments in Shares of Stock and Available-for-Sale Investments. Revenue is recognized upon delivery of the securities to and confirmation of the sale by the broker.

Dividend. Revenue is recognized when the Group’s right as a shareholder to receive the payment is established.

Management and Service Fees. Revenue is recognized when earned in accordance with the terms of the agreements.

Marketing Support. Revenue is recognized when the performance and provision of contractually agreed marketing tasks have been rendered and store facilities have been used. Marketing support is shown under “Others” account in the consolidated statements of income.

Interest. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

<u>Management Fees</u>
Management fees are recognized as expense in accordance with the terms of the agreements.

<u>Cost and Expenses</u>
Cost of sales, selling, general and administrative expenses and interest expense are recognized as incurred.

<u>Pension Benefits</u>
The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit actuarial valuation method. This method reflects service rendered by employees to the date of valuation and incorporates assumptions concerning employees’ projected salaries. Pension cost includes current service cost, interest cost, expected return on plan assets, amortization of unrecognized past service costs, recognition of actuarial

gains or losses and effect of any curtailments or settlements. Past service cost is amortized over a period until the benefits become vested. The portion of the actuarial gains and losses is recognized when it exceeds the "corridor" (10% of the greater of the present value of the defined benefit obligation or fair value of the plan assets) at the previous reporting date, divided by the expected average remaining working lives of active plan members.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and actuarial gains and losses not recognized, reduced by past service cost not yet recognized and the fair value of plan assets, out of which the obligations are to be settled directly. If such aggregate is negative, the asset is measured at the lower of such aggregate or the aggregate of cumulative unrecognized net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan.

If the asset is measured at the aggregate of cumulative unrecognized net actuarial losses and past service cost, and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan, net actuarial losses of the current period and past service cost of the current period are recognized immediately to the extent that they exceed any reduction in the present value of those economic benefits. If there is no change or if there is an increase in the present value of the economic benefits, the entire net actuarial losses of the current period and past service cost of the current period are recognized immediately. Similarly, net actuarial gains of the current period after the deduction of past service cost of the current period exceeding any increase in the present value of the economic benefits stated above are recognized immediately if the asset is measured at the aggregate of cumulative unrecognized net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan. If there is no change or if there is a decrease in the present value of the economic benefits, the entire net actuarial gains of the current period after the deduction of past service cost of the current period are recognized immediately.

Foreign Currency-denominated Transactions
The consolidated financial statements are presented in Philippine peso, which is the Group's functional and presentation currency. Transactions in foreign currencies are initially recorded in the functional currency rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are restated at the functional currency rate of exchange at reporting period. All differences are taken to the consolidated statements of income.

Foreign Currency Translation
The functional currency of the foreign subsidiaries of SM Prime is China yuan renminbi. As of the reporting date, the assets and liabilities of foreign subsidiaries of SM Pime are translated into Philippine peso at the rate of exchange ruling at reporting period and its income and expenses are translated at the weighted average rate for the year. The resulting translation differences are included in the consolidated statements of comprehensive income and are presented within the "Cumulative translation adjustment of a subsidiary" account in the consolidated statements of changes in equity. On disposal of a foreign entity, the accumulated exchange differences are recognized in the consolidated statements of income as a component of the gain or loss on disposal.

Leases
The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is

dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Group as Lessee. Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the inception of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are reflected in the consolidated statements of income.

Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Leases which do not transfer to the Group substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the consolidated statements of income on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

Group as Lessor. Leases where the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease income from operating leases are recognized as income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the receipt of the reimbursement is virtually certain.

Borrowing Costs

Borrowing costs are capitalized if they are directly attributable to the acquisition or construction of a qualifying asset as part of the cost of that asset. Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the assets are substantially ready for their intended use. Borrowing costs are capitalized when it is probable that they will result in future economic benefits to the Group. All other borrowing costs are expensed as incurred. For borrowing associated with a specific asset, the actual rate on that borrowing is used. Otherwise, a weighted average cost of borrowings is used.

Taxes

Current Tax. Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at reporting period.

Deferred Tax. Deferred tax is provided, using the balance sheet liability method, on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- with respect to taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of excess MCIT and NOLCO, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT and NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- with respect to deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at reporting period.

Income tax relating to items recognized directly in the consolidated statements of comprehensive income is recognized in the consolidated statements of comprehensive income and not in the consolidated statements of income.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Value Added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, except:

- where the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

- receivables and payables that are stated with the amount of tax included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of “Other current assets” and “Accounts payable and other current liabilities” accounts in the consolidated balance sheets.

Business Segments
The Group is organized and managed separately according to the nature of business. The five major operating businesses of the Group are shopping mall development, retail, real estate development and tourism, hotels and conventions, and financial services and others. These operating businesses are the basis upon which the Group reports its segment information presented in Note 6 to the consolidated financial statements.

Basic/Diluted Earnings Per Common Share (EPS)
Basic EPS is computed by dividing the net income for the period attributable to owners of the Parent by the weighted-average number of issued and outstanding common shares during the period, with retroactive adjustment for any stock dividends declared.

For the purpose of computing diluted EPS, the net income for the period attributable to owners of the Parent and the weighted-average number of issued and outstanding common shares are adjusted for the effects of all dilutive potential ordinary shares.

Contingencies
Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Period
Post year-end events that provide additional information about the Group’s position at reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. Business Combinations

Acquisition of Service Companies
In 2009, SM Retail completed the acquisition of 99% ownership of various Service Companies, which are unlisted companies incorporated in the Philippines that provides general services to the various department store companies.

The acquisition of the Service Companies was considered as business reorganization of companies under common control. Thus, the acquisition was accounted for similar to pooling of interest method.

The excess of the cost of business combination over the net carrying amounts of the assets and liabilities of ₱12.7 million is included under “Equity adjustment from business combination” account in the equity section of the December 31, 2009 consolidated balance sheet.

The total cash inflow from the acquisition of the Service Companies amounted to ₱34.0 million.

Acquisition of Magenta
SM Land acquired 100% ownership of Magenta, which is an unlisted company incorporated in the Philippines. The acquisition was considered as a business combination accounted using the purchase method in 2009.

The December 31, 2009 consolidated financial statements were not restated due to immateriality. If restated, the December 31, 2009 consolidated net income would be reduced by ₱9.7 million. The excess of the cost of business combination over the net carrying amounts of the assets and liabilities of ₱10.7 million was recognized as goodwill in 2010 (see Note 17).

Acquisition of Alpha Star
On September 3, 2009, SM Land China, completed the acquisition of Alpha Star from Grand China for ₱777.9 million (¥112.1 million). As a result of the acquisition, Alpha Star became a wholly-owned subsidiary of SM Land China.

Below are the details of the net cash outflow from the acquisition of Alpha Star:

Cash outflow on acquisition *(in thousands):*	
Cash paid	₱777,878
Net cash and cash equivalents of the acquired subsidiary	(154,961)
Net cash outflow	₱622,917

The acquisition of Alpha Star was considered as business reorganization of companies under common control. Thus, the acquisition was accounted for similar to pooling of interest method.

Acquisition of SM China Companies
On November 13, 2007, the BOD of SM Prime approved the acquisition of 100% of the outstanding common shares of Affluent and Mega Make, holding companies of the three SM Malls in China, in exchange for SM Prime's common shares with a valuation based on the 30-day volume weighted average price of SM Prime at ₱11.86 per share. The acquisition is intended to gain a foothold on China's high-growth prospects and use this as a platform for long-term growth outside the Philippines.

On February 18, 2008, SM Prime executed the subscription agreements with Grand China and Oriental Land Development Limited (Oriental Land) for the exchange of Affluent and Mega Make shares of stock valued for 912,897,212 shares of SM Prime's common stock to be issued upon the approval by the Philippine SEC and PSE. Grand China owns Affluent, which is the holding company of SM Shopping Center (Chengdu) Co. Ltd. (SM Chengdu), Xiamen City Co. Ltd. and Xiamen SM Mall Management Co. Ltd. (collectively, SM Xiamen), while Oriental Land owns Mega Make, the holding company of SM International Square Jinjiang City Fujian (SM Jinjiang).

On May 20, 2008, the Philippine SEC approved the valuation of the share-for-share swap transaction with Grand China and Oriental Land and confirmed that the issuance of shares is exempt from registration requirements of the Securities Regulation Code. Pursuant to the agreements entered into among SM Prime, Grand China and Oriental Land, the 912,897,212 shares of SM Prime were exchanged for 1,000 shares (100% ownership) of Affluent and 1 share (100% ownership) of Mega Make at a total swap price of ₱10,827.0 million. On May 28, 2008, the PSE approved the listing of 912,897,212 new shares which were issued to Grand China and Oriental Land. The listing of the shares was completed on June 18, 2008. As a result of the acquisition, Affluent and Mega Make became wholly-owned subsidiaries of SM Prime.

On November 30, 2008, SM Prime likewise completed the acquisition of 100% ownership of SM Land China from Grand China for ₱11,360 (HK$2,000). As a result of the acquisition, SM Land China became a wholly-owned subsidiary of SM Prime.

Affluent, Mega Make and SM Land China are herein after collectively referred to as SM China Companies.

For accounting purposes, the acquisition of Affluent and Mega Make was recorded at the fair value of the SM Prime shares issued and cash consideration given to Grand China and Oriental Land at the date of exchange amounting to ₱8,125.0 million, plus directly attributable costs associated with the acquisition.

Acquisition of Affluent and Mega Make. Affluent and Mega Make are unlisted companies which were incorporated under the laws of the British Virgin Islands. Affluent indirectly owns SM Xiamen and SM Chengdu while Mega Make indirectly owns SM Jinjiang, companies incorporated in the People's Republic of China. These companies are engaged in mall operations and development and construction of shopping centers and property management.

Below are the details of the cost of the acquisition of Affluent:

Cost *(in thousands)*:

	₱3,332,503

Cash outflow on acquisition *(in thousands)*:	
Cash paid	₱17,316
Cash and cash equivalents of the acquired subsidiary	(18)
Net cash outflow	₱17,298

The total cost of the acquisition was ₱3,332.5 million, consisting of issuance of equity instruments and costs directly attributable to the acquisition. SM Prime issued 372,492,882 shares with a fair value of ₱8.90 each, the quoted market price of the shares of SM Prime's shares on the date of exchange.

Acquisition of SM Land China. SM Land China is an unlisted company which was incorporated in Hong Kong.

Below are the details of the net cash inflow from the acquisition of SM Land China:

Cash inflow on acquisition *(in thousands)*:	
Cash paid	(₱11)
Net cash and cash equivalents of the acquired subsidiary	7,511
Net cash inflow	₱7,500

The acquisitions of the SM China Companies were considered as business reorganizations of companies under common control. Thus, the acquisitions were accounted for similar to pooling of interest method.

The excess of the cost of business combinations over the net carrying amounts of the net assets and liabilities at the beginning of the earliest period presented of the acquired companies amounting to ₱4,818.0 million is included under "Equity adjustments from business combination" account in the equity section of the consolidated balance sheets.

6. Segment Information

For management purposes, the Group is organized into business units based on their products and services, and has five reportable operating segments as follows: shopping mall development, retail, real estate development and tourism, hotels and conventions and financial services and others.

The shopping mall development segment develops, conducts, operates and maintains the business of modern commercial shopping centers and all businesses related thereto such as the conduct, operation and maintenance of shopping center spaces for rent, amusement centers, or cinema theaters within the compound of the shopping centers.

The retail segment is engaged in the retail/wholesale trading of merchandise, such as dry goods, wearing apparels, food and other merchandise.

The real estate development and tourism segment is involved in the development and transformation of major residential, commercial, entertainment and tourism districts through sustained capital investments in buildings and infrastructure.

The hotels and conventions segment engages in and carries on the business of hotel and resort and operates and maintains any and all services and facilities incident thereto.

Financial services and others segment primarily includes the Parent Company which engages in asset management and capital investments, and associates which are involved in financial services.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with the operating profit or loss in the consolidated financial statements.

Segment assets and liabilities do not include deferred tax assets and deferred tax liabilities, respectively.

Transfer prices between business segments are set on an arm's-length basis, similar to transactions with third parties. Segment revenue includes transfers between business segments. Such transfers are eliminated in the consolidation.

Atlas

On July 25, 2011, SMIC acquired 316,242,331 common shares of Atlas for US$142.2 million (₱5,996.6 million) for 17.9% equity interest. However, SMIC has three representations in the BOD of Atlas as at December 31, 2011 and is participating in operational decisions. Based on these facts and circumstances, management determined that the Group has significant influence in Atlas and therefore has accounted it as investment in associate using equity method in the consolidated financial statements. The acquisition of Atlas was accounted for provisionally, pending the information on the fair value of Atlas' net assets.

Belle

In April 2011, the Group, increased its ownership in Belle, an associate, by 20.78% via share swap wherein the entire outstanding shares of Premium Leisure Amusement, Inc. (a subsidiary) was exchanged for certain number of common shares of Belle valued at ₱1.95 per share (shares swap). The transaction resulted to a net gain on share swap amounting to ₱2,604.2 million.

In 2010, the Group obtained 17.53% additional ownership in Belle for a total consideration of ₱1,598.3 million. The acquisition resulted in Belle becoming an associate of the Group at 24.77% and 13.24% direct and effective ownership, respectively, as of December 31, 2010.

BDO

SMIC and an affiliate entered into a deed of assignment whereby the affiliate cedes, transfers, conveys and assigns to the former, all commercial rights of its investment in BDO. The consideration, which is equivalent to the cost of the assigned shares of ₱5,712.0 million as of December 31, 2010, was paid through application of outstanding receivables of SMIC from the affiliate.

At various dates in 2010, SMIC disposed a total of 5.3 million BDO common shares, which is equivalent to 0.2% of the total outstanding common stock of BDO at an average price of ₱28.63 a share or for a total cost of ₱151.8 million.

In April 2010, Primebridge and MRDC disposed a total of 21.5 million BDO common shares, which is equivalent to 0.8% of the total outstanding common stock of BDO at an average price of ₱22.65 a share or for a total cost of ₱486.2 million.

HPI
In 2011, the Group disposed of 134.8 million shares of HPI for a total cost of ₱288.2 miliion. The disposal resulted in a gain of ₱1.0 million.

China Bank
At various dates in 2010, SMDC disposed a total of 0.09 million China Bank shares, which is equivalent to 0.08% of the total outstanding common stock of China Bank, at an average price of ₱340.8 a share or for a total cost ₱31.1 million.

On October 18, 2009, SM Land sold 0.5 million China Bank shares with total carrying value amounting to ₱18.9 million for ₱182.5 million. The gain on sale of investments in shares of stock of associates amounted to ₱163.6 million.

SHDC
In 2011, SMDC obtained 49% ownership in SHDC for a total consideration of ₱20.1 million. Consequently, SHDC became an associate of the Group.

The fair values of investment properties as at December 31, 2011 were determined by independent appraisers based on appraisal reports made in 2011, which amounted to ₱291,671.9 million at reporting period. The fair value represents the amount at which the assets can be exchanged between a knowledgeable, willing seller and a knowledgeable, willing buyer in an arm's-length transaction at the date of valuation in accordance with International Valuation Standards.

Included under "Land" account are the 212,119 square meters and 223,474 square meters of real estate properties with a carrying value of ₱474.0 million and ₱475.0 million as at December 31, 2011 and 2010, respectively, and a fair value of ₱13,531.0 million as of August 2007. The land was planned for residential development in accordance with the cooperative contracts entered into by Mega Make and Affluent with Grand China and Oriental Land on March 15, 2007. The value of these real estate properties was not part of the consideration paid by SM Prime of ₱10,827.0 million to Grand China and Oriental Land. Accordingly, the assets were recorded at carrying values under "Investment properties" account and a corresponding liability equivalent to the same amount is shown as part of “Tenants’ deposits and others” account in the consolidated balance sheets.

A portion of investment properties located in China with a carrying value of ₱638.0 million and ₱623.0 million as at December 31, 2011 and 2010, respectively, and a fair value of ₱16,879.0 million as at August 2007, were mortgaged as collaterals to secure the domestic borrowings in China (see Note 20).

Rent income from investment properties, which is primarily attributable to SM Prime, amounted to ₱20,472.8 million, ₱17,904.7 million and ₱15,722.1 million for the years ended December 31, 2011, 2010 and 2009, respectively. Consolidated direct operating expenses from investment properties which generate income amounted to ₱12,277.5 million, ₱11,271.4 million and ₱9,745.8 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Construction in progress account includes shopping mall complex under construction of SM Prime. In 2011, shopping mall complex under construction mainly pertains to costs incurred for the development of SM San Fernando, SM Olongapo, SM Consolacion Cebu, SM General Santos, SM Lanang Davao, SM Taguig, SM Chongqing, SM Zibo and SM Tianjin. In 2010, shopping mall complex under construction mainly pertains to costs incurred for the development of SM Taguig, SM Masinag, SM Suzhou, SM Chongqing and SM Tianjin.

Shopping mall complex under construction includes cost of land amounting to ₱1,575.0 million and ₱1,966.4 million as at December 31, 2011 and 2010, respectively.

Construction contracts with various contractors related to the construction of the above-mentioned projects amounted to ₱39,240.0 million and ₱27,509.0 million as at December 31, 2011 and 2010, respectively, inclusive of overhead, cost of labor and materials and all other costs necessary for the proper execution of the works. The outstanding contracts as of December 31, 2011 and 2010 are valued at ₱10,268.0 million and ₱5,745.0 million, respectively.

Interest capitalized to shopping mall complex under construction amounted to ₱54.3 million and ₱600.2 million in 2011 and 2010, respectively. Capitalization rates used were 5.71% and 6.87% in 2011 and 2010, respectively.

16. Land and Development and Condominium Units for Sale

Land and development, which amounted to ₱23,012.4 million and ₱19,703.6 million as at December 31, 2011 and 2010, respectively, include land and cost of the condominium projects.

<u>SMDC</u>
Land and development costs attributable to SMDC pertain to the on-going residential condominium projects. Estimated cost to complete the projects amounted to ₱30,587.9 million and ₱5,518.0 million as at December 31, 2011 and 2010, respectively.

SMDC has also acquired several parcels of land for future development with aggregate carrying value of ₱16,626.8 million and ₱8,759.5 million as at December 31, 2011 and 2010, respectively.

In 2011, SMDC acquired Twenty Two Forty One Properties, Inc. (TTFOPI) for ₱195.6 million and became a wholly owned subsidiary. The purchase of TTFOPI was accounted for as an acquisition of asset. TTFOPI owns a parcel of land which is currently being developed into a commercial/residential condominium project.

In 2010, SMDC acquired VLI for ₱566.6 million and became its wholly owned subsidiary. The purchase of VLI was accounted for as an acquisition of asset. VLI owns a parcel of land which will be developed into a commercial/residential condominium project.

In 2009, the SMDC acquired Landfactors Incorporated (Landfactors) for ₱300.0 million and became its wholly owned subsidiary. The purchase of Landfactors was accounted for as an acquisition of asset. Landfactors owns a parcel of land which is currently being developed into a commercial/residential condominium project.

SMDC partially finances its project development through issuance of notes and availment of loans. Capitalized borrowing costs amounted to ₱334.0 million and ₱334.9 million in 2011 and 2010, respectively.

On June 30, 2004, SMDC entered into a Joint Venture Agreement with Government Service Insurance System (GSIS) for the development of a residential condominium project on a parcel of land owned by GSIS. As at December 31, 2011, the development of the said project has not yet started.

<u>Costa</u>
Costa's construction projects located at Hamilo Coast in Nasugbu, Batangas consist of condominium buildings and beach and country club. As at December 31, 2010, Costa completed the construction of two condominium projects and the beach and country club. Total estimated cost to complete the on-going projects amounted to ₱283.8 million and ₱711.5 million as at December 31, 2011 and 2010, respectively.

In April 2010, the construction of Pico de Loro by Costa was completed but the ownership of the risk and rewards of the beach and country club was transferred to Pico de Loro in June 2010. The total actual cost of beach and country club, in exchange for a total of 4,000 club shares amounted to ₱1,128.2 million as of December 31, 2010. Such amount includes ₱38.9 million cost of land and directly attributable costs, transferred by Costa to Pico de Loro in 2009.

Condominium units for sale amounting to ₱1,115.9 million and ₱1,531.5 million as of December 31, 2011 and 2010, respectively, pertain to completed projects of SMDC, Costa and ICDC. The amounts were included under "Other current assets" account in the consolidated balance sheets (see Note 11).

The condominium units for sale and land and development are stated at cost as of December 31, 2011 and 2010.

Borrowing costs capitalized to land and development account amounted to ₱411.7 million and ₱336.4 million in 2011 and 2010, respectively. The average rates used to determine the amount of borrowing costs eligible for capitalization range from 3.7% to 7.5% in 2011 and 6.7% to 7.2% in 2010. Interest expense charged to operations amounted to ₱488.3 million in 2011 and ₱311.3 million in 2010.

The recoverable amount of goodwill, trademarks and brand names have been determined using the cash flow projections based on the financial budgets approved by senior management covering a 3-year period. The calculation of value-in-use is most sensitive to pre-tax discount rates. The pre-tax discount rates applied to cash flow projections ranged from 7.15% to 8.93% and 9.19% to 12.61% as at December 31, 2011 and 2010, respectively. The discount rates were determined based on the yield of 10-year government bonds at the beginning of the forecasted year. Discount rates reflect the current market assessment of the risks to each cash generating unit and were estimated based on the average percentage of weighted average cost of capital for the industry. The rate was further adjusted to reflect the market assessment of any risk specific to the cash generating unit for which future estimates of cash flows have not been adjusted. Management assessed that no reasonable possible change in pre-tax discount rates and future cash inflows would cause the carrying value of goodwill, trademarks and brand names in 2011 and 2010 to materially exceed its recoverable amount.

In 2009, various cash advances were provided to a related party for payment of interest, purchase of shares and other operating requirements totaling to ₱6,000.0 million, which bears a fixed interest of 7.0%, payable semi-annually and will mature in 2013.

Escrow fund amounting to ₱2,195.7 million and ₱2,618.2 million as of December 31, 2011 and 2010, respectively, pertains mainly to the amounts deposited in the account of an escrow agent as required by the Housing and Land Use Regulatory Board (HLURB) in connection with SMDC's temporary license to sell prior to HLURB's issuance of a license to sell and certificate of registration.

Deposits and advance rentals substantially pertain to the lease agreements entered into by SM Prime for certain parcels of land where some of its malls are constructed. The lease agreements provide that the security deposits will be applied to future rentals. Consequently, the said deposits and advance rentals are not remeasured at amortized cost.

Long-term notes pertain to unquoted and unsecured subordinated debt instruments which carry fixed interest rates per annum ranging from 7.0% to 8.50% as of December 31, 2011 and 2010. Fixed Rate Bonds

On October 13, 2010, SMIC issued US$400 million bonds (₱16,600.0 million) which bear a fixed interest rate of 5.5% per annum, payable semi-annually in arrears and will mature on October 13, 2017. This issuance is comprised of US$186.3 million (₱7,856.2 million) additional bonds, and US$82.9 million (₱3,372.9 million) and US$130.8 million (₱5,370.9 million) exchanged bonds from the existing US$350.0 million 6.75% bonds due 2013 and US$500.0 million 6.00% bonds due 2014, respectively. The exchange was not accounted for as an extinguishment but merely a modification of terms because the terms of the exchanged bonds are not substantially different from the existing bonds (i.e., the difference between the present value of the cash flows of the exchanged bonds and the present value of the remaining cash flows of the existing bonds discounted using the original effective interest rate did not exceed 10%).

On September 22, 2009, SMIC issued US$500.0 million bonds, with peso equivalent of ₱16,622.2 million as of December 31, 2011 and 2010, which bear a fixed interest rate of 6.0% per annum, payable semi-annually in arrears. The bonds will mature on September 22, 2014.

On July 17, 2008, the SMIC issued US$350.0 million bonds, with peso equivalents of ₱10,768.1 million and ₱12,023.7 million as of December 31, 2011 and 2010, respectively, which bear a fixed interest rate of 6.75% per annum, payable semi-annually in arrears. The bonds will mature on July 18, 2013 and may be redeemed at the option of the relevant holder beginning July 18, 2011 at the principal amount.

<u>Convertible Bonds</u>
On March 19, 2007, the SMIC issued at face US$300.0 million Convertible Bonds (the Bonds) (financial liability component amounted to ₱1,027.9 million and ₱1,046.5 million as of December 31, 2011 and 2010, respectively), which carry a zero coupon with a yield to maturity of 3.5% due on March 20, 2012. The bonds contain multiple embedded derivatives (i.e., conversion option, call option and put option) which are further discussed in Note 30.

The conversion option entitles the holder to convert its outstanding bonds for SMIC's common shares at any time, on or after June 30, 2007 until the close of business on March 13, 2012, unless previously redeemed, converted or purchased and cancelled. Starting April 25, 2007, the conversion price is equal to ₱453.39 a share, after giving effect to the 4.27% stock dividend. At various dates in 2011 and 2010, the bondholders of US$1.7 million (₱82.2million) and US$9.0 million (₱435.1 million) bonds opted to convert into 181,364 and 959,631 of SMIC's shares (see Note 21). The said conversion resulted in a gain of ₱11.3 million and ₱84.8 million, respectively, shown under "Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives" account in profit or loss. The fair value of the related derivative liability derecognized upon conversion amounted to US$.3 million (₱11.0 million) and US$2.3 million (₱97.8 million) for December 2011 and December 2010 respectively (see Notes 19 and 30).

The put option entitles the bondholders to require the Parent Company to redeem all or some of its Bonds on March 19, 2010 (put date) at 110.97%. A total of US$246.3 million (₱11,253.5 million) bonds were redeemed, which resulted in a gain of ₱844.6 million shown under "Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives" account in profit or loss. The fair value of the related derivative liability derecognized upon early redemption amounted US$35.2 million (₱1,609.7 million) (see Note 30).

Lastly, the call option gives right to the Parent Company to redeem the remaining Bonds, in whole but not in part at their early redemption amount on the date fixed for redemption, provided, however, that no such redemption may be made unless the closing price of the shares of the Parent Company (translated into US dollars at the prevailing rate) for each of the 30 consecutive trading days, the last of which occurs no more than five days prior to redemption notice, was at least 130% of the applicable early redemption amount divided by the conversion ratio. The remaining bonds will be redeemed at 118.96% of the principal amount.

<u>Seven-year and Ten-year Corporate Notes</u>
On September 26, 2011, SMIC issued fixed rate corporate notes comprised of 7-year or Series A Notes and 10-year or Series B Notes due on September 26,2018 and September 26, 2021, respectively. The total issuance amounted to ₱916.0 million and ₱4,084.0 million for the Series A and Series B Notes, respectively.

The series A Notes have a term of seven years from the issue date, with a fixed interest rate equivalent to 5.75% per annum payable semi-annually in arrears starting March 26, 2012. The Seies B Notes have a term of ten years from the issue date, with a fixed interest rate equivalent to 6.625% per annum payable semi-annually in arrears starting March 26, 2012.

The Series A and B Notes have principal repayment of 0.1% of the principal amount in annual installments that will commence on the twelfth (12^{th}) month from the issued date, with the last installment payment to be made on maturity date.

Five-year fixed rate notes
On February 7, 2011, SMIC issued corporate notes amounting to ₱7,000.0 million, which bear a fixed interest rate of 6.165% per annum, payable semi-annually in arrears. The corporate notes will mature on February 8, 2016.

Five-year and Seven-year Retail Bonds
On June 25, 2009, SMIC issued fixed rate bonds, which comprised of 5-year or Series A bonds and 7-year or Series B Bonds due on June 26, 2014 and June 15, 2016, respectively. The total issuance amounted to ₱9,000.0 million and ₱1,000.0 million for the Series A and Series B Bonds, respectively.

The Series A Bonds have a term of five years and one day from the issue date, with a fixed interest rate equivalent to 8.25% per annum payable semi-annually in arrears starting December 26, 2009. The Series B Bonds have a term of seven years from the issue date, with a fixed interest rate equivalent to 9.10% per annum payable semi-annually in arrears starting December 25, 2009.

Bank Loans Collateralized with Time Deposits
On January 8, 2010, SMIC obtained two five-year term loans amounting to ₱1,500.0 million each. The loans are based on a three-month Philippine Dealing System Treasury-Fixing (PDST-F) rate plus an agreed margin. Both loans are payable quarterly in arrears.

On October 16, 2007, the SMIC obtained a five-year term loan amounting to ₱6,000.0 million, which bears interest based on a three-month PDST-F rate plus a margin of 0.375% per annum, payable quarterly in arrears.

These loans are collateralized by SMIC's time deposits amounting to US$475.0 million and US$170.0 million with peso equivalents of ₱20,824.0 million and ₱7,452.8 million as of December 31, 2011 and 2010, respectively (see Note 8).

Preferred Shares
On August 6, 2007, SMIC issued Series 1 and Series 2 of nonconvertible, non-participating, non-voting preferred shares amounting to ₱4,300.0 million and ₱200.0 million, respectively. Each share has a par value of ₱10.0 a share and an offer price of ₱10,000 a share.

The Series 1 preferred shares carry a fixed dividend rate of 7.51% per annum, payable semi-annually in arrears, while the Series 2 preferred shares carry a dividend rate based on 3-month PDST-F rate plus a margin of 75 basis points. The dividend rights are cumulative. The preferred shares rank ahead of the common shares in the event of liquidation.

The preferred shares are mandatorily redeemable on August 6, 2012 at redemption price, which consists of (1) 100% of the offer price; (2) all unpaid cash dividends accruing thereon, if any, and/or in the event no cash dividends are declared for the relevant period, an amount equivalent to the sum of the cash dividends on the preferred shares had dividends been declared and paid for the relevant period; and (3) any charges on unpaid amounts due then outstanding. SMIC has an option to early redeem the preferred shares subject to certain conditions. On February 7, 2011, SMIC prepaid the Series 1 preferred shares amounting to ₱3,300.0 million.

28. Lease Agreements

The lease agreements of SM Prime and its subsidiaries with their tenants are generally granted for a term of one year, with the exception of some of the larger tenants operating nationally, which are granted initial lease terms of five years, renewable on an annual basis thereafter. Tenants likewise pay either a fixed monthly rent, which is calculated by reference to a fixed sum per square meter of area leased, or pay rent on a percentage rental basis, which comprises of a basic monthly amount and a percentage of gross sales or a minimum set amount, whichever is higher.

The Parent Company's lease agreements with its tenants are generally granted for a term of one to twenty-five years. Tenants likewise pay a fixed monthly rent which is calculated by reference to a fixed sum per square meter of area leased except for few tenants, which pay either a fixed monthly rent or a percentage of gross sales, whichever is higher.

Upon inception of the lease agreement, tenants are required to pay certain amounts of deposits. Tenants' deposits amounted to ₱10,104.6 million and ₱9,503.8 million as of December 31, 2011 and 2010, respectively.

The minimum lease receivables under the noncancellable operating leases of the Parent Company as of December 31 are as follows:

	2011	2010
	(In Thousands)	
Within one year	**₱661,086**	₱584,714
After one year but not more than five years	**1,752,399**	2,127,508
After five years	**202,718**	311,124
Balance at end of year	**₱2,616,203**	₱3,023,346

SM Prime and its subsidiaries also lease certain parcels of land where some of their malls are situated or constructed. The terms of the lease are for periods ranging from 15 to 50 years, renewable for the same period under the same terms and conditions. Rental payments are generally computed based on a certain percentage of the gross rental income or a certain fixed amount, whichever is higher.

The minimum lease payables under the noncancellable operating leases of SM Prime as of December 31 are as follows:

	2011	2010
	(In Thousands)	
Within one year	**₱468,127**	₱373,895
After one year but not more than five years	**2,220,583**	1,737,603
After five years	**14,363,424**	7,814,374
Balance at end of year	**₱17,052,134**	₱9,925,872

SVI has finance leases for several sets of computer equipment included under “Property and equipment” account. The leases provide options to SVI to purchase the computer equipment at the end of the lease terms.

SVI’s obligation under finance lease ended on May 27, 2011. Total lease payments amounted to ₱3.6 million in 2011 and ₱8.6 million in 2010.

29. Financial Risk Management Objectives and Policies

The Group’s principal financial instruments, other than derivatives, comprise of bank loans, long-term debt, AFS investments, investments held for trading, time deposits and short-term investments and cash and cash equivalents. The main purpose of these financial instruments is to raise financing for the Group’s operations. The Group has other financial assets and liabilities such as receivables and accounts payable and other current liabilities, which arise directly from its operations.

The Group also enters into derivative transactions, principally, cross currency swaps, interest rate swaps, foreign currency call options, non-deliverable forwards and foreign currency range options. The purpose is to manage the interest rate and currency risks arising from the Group’s operations and its sources of finance.

The main risks arising from the Group’s financial instruments are interest rate risk, foreign currency risk, liquidity risk, credit risk and equity price risk. The BOD reviews and agrees policies for managing each of these risks. The Group’s accounting policies in relation to derivatives are set out in Note 4.

Fixed rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk.

Repricing of floating rate financial instruments is mostly done at intervals of three months or six months.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts. The Group's guideline is to keep between 50% to 60% of its borrowings at fixed rates of interest. To manage this mix in a cost-efficient manner, the Group enters into interest rate swaps, in which the Group agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. These swaps are designated to economically hedge the underlying debt obligations. As of December 31, 2011 and 2010, after taking into account the effect of interest rate swaps, approximately 66% and 60%, respectively, of the Group's borrowings are kept at a fixed rate of interest, considering market conditions.

Interest Rate Risk Sensitivity Analysis. The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant of the Group's income before income tax and equity after income tax, through the impact of floating rate financial liabilities and debt securities classified as FVPL and AFS investments, respectively.

	Increase (Decrease) in Basis Points	Effect on Income Before Tax	Effect on Equity After Income Tax
			(In Millions)
2011			
2010	100	(₱467.9)	(₱327.5)
	50	(233.9)	(163.8)
	(100)	467.9	327.5
	(50)	233.9	163.8

The assumed movement in basis points for interest rate sensitivity analysis is based on currently observable market environment, showing a significantly higher volatility as in prior years.

Foreign Currency Risk

The Group's exposure to foreign currency risk arises as the Parent Company and SM Prime have significant investments and debt issuance which are denominated in U.S. dollars. To manage its foreign exchange risk, stabilize cash flows and improve investment and cash flow planning, the Group enters into foreign currency swap contracts, foreign currency call options, non-deliverable forwards and foreign currency range options aimed at reducing and/or managing the adverse impact of changes in foreign exchange rates on financial performance and cash flows.

The following tables show the Group's foreign currency-denominated financial assets and liabilities and their peso equivalents as of December 31, 2011 and 2010:

As of December 31, 2011 and 2010, approximately 36.4% and 46.4%, respectively, of the Group's total consolidated bank loans and debt were denominated in US dollars. Thus, a strengthening of the Philippine peso against the US dollar will decrease both the principal amount of the foreign currency-denominated debt and interest expense on the Group's debt in Philippine peso terms.

The Group has recognized in its consolidated statements of income, foreign exchange gain of ₱242.9 million, ₱407.2 million and ₱224.0 million on its net foreign-currency denominated assets and liabilities for the years ended December 31, 2011, 2010 and 2009, respectively. This resulted from the movements of the U.S. dollar against the Philippine peso as shown in the following table:

	U.S. Dollar to Peso
December 31, 2009	46.20
December 31, 2010	43.84

Liquidity Risk

Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet commitments from financial instruments or that a market for derivatives may not exist in some circumstance.

The Group seeks to manage its liquidity profile to be able to finance capital expenditures and service maturing debts. To cover its financing requirements, the Group intends to use internally generated funds and proceeds from debt and equity issues and sales of certain assets.

As part of its liquidity risk management program, the Group regularly evaluates its projected and actual cash flow information and continuously assesses conditions in the financial markets for opportunities to pursue fund-raising initiatives. These initiatives may include bank loans, export credit agency-guaranteed facilities and debt capital and equity market issues.

The Group's financial assets, which have maturities of less than 12 months and used to meet its short-term liquidity needs, include cash and cash equivalents, current portion of time deposits and short-term investments, investments held for trading and current portion of AFS investments-bonds and corporate notes amounting to ₱56,050.3 million, ₱879.4 million, ₱457.5 million and ₱1,000.0 million, respectively, as of December 31, 2011.

The tables below summarize the maturity profile of the Group's financial liabilities as of December 31, 2011 and 2010 based on the contractual undiscounted payments:

Credit Risk

The Group trades only with recognized, creditworthy related and third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on a regular basis which aims to reduce the Group's exposure to bad debts at a minimum level. Given the Group's diverse base of customers, it is not exposed to large concentrations of credit risk.

With respect to credit risk arising from the other financial assets of the Group, which comprise of cash and cash equivalents, time deposits and short-term investments, investments held for trading, AFS investments and certain derivative instruments, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments, without considering the effects of collateral.

Since the Group trades only with recognized related and third parties, there is no requirement for collateral.

Credit Risk Exposure and Concentration. The table below shows the maximum exposure to credit risk of the Group per business segment as of December 31, 2011 and 2010, without considering the effects of collaterals and other credit risk mitigation techniques.

The total financial assets under "Others" business segment relate primarily to the Parent Company's financial assets. The balances presented are net of intercompany eliminations.

As of December 31, 2011 and 2010, these financial assets, except for certain receivables and AFS investments, are generally viewed by management as good and collectible considering the credit history of the counterparties. Past due or impaired financial assets are very minimal in relation to the Group's total financial assets.

Credit Quality of Financial Assets

The credit quality of financial assets is managed by the Group using high quality and standard quality as internal credit ratings.

High Quality. Pertains to counterparty who is not expected by the Group to default in settling its obligations, thus credit risk exposure is minimal. This normally includes large prime financial institutions, companies and government agencies.

Standard Quality. Other financial assets not belonging to high quality financial assets are included in this category.

As of December 31, 2011 and 2010, the credit analyses of the Group's financial assets that are neither past due nor impaired are as follows:

Equity Price Risk
The Group's exposure to equity price pertains to its investments in quoted equity shares which are either classified as investments held for trading and AFS investments in the consolidated balance sheets. Equity price risk arises from the changes in the levels of equity indices and the value of individual stocks traded in the stock exchange. The Group has no equity risk exposure on stocks that are not traded.

The effect on income before tax and equity (as a result of change in fair value of investments held for trading and AFS investments as of December 31, 2011 and 2010) due to a possible change in equity indices, based on historical trend of PSE index, with all other variables held constant is as follows:

Capital Management
The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay-off existing debts, return capital to shareholders or issue new shares.

The Group monitors its capital gearing by measuring the ratio of net interest-bearing debt divided by total capital plus net interest-bearing debt and interest-bearing debt divided by total capital plus interest-bearing debt. Net interest-bearing debt includes all short-term and long-term debt, reduced by related pledged time deposits, net of cash and cash equivalents, time deposits and short-term investments, investments in bonds held for trading, AFS investments (redeemable preferred shares and bonds and corporate notes) and long-term notes included under "Other noncurrent assets" account, while interest-bearing debt includes all short-term and long-term debt, reduced by related pledged time deposits. The Group's guideline is to keep the gearing ratio at not lower than 50:50. The Group's ratio of net interest-bearing debt to total capital plus net interest-bearing debt was 28:72 and 22:78 as of December 31, 2011 and 2010, respectively, while the ratio of interest-bearing debt to total capital plus interest-bearing debt were 51:49 and 50:50 as of December 31, 2011 and 2010, respectively.

As of December 31, 2011 and 2010, the Group’s ratio of net interest-bearing debt to total capital plus net interest-bearing debt and ratio of interest-bearing debt to total capital plus interest-bearing debt were as follows:

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

Investments Held for Trading. The fair values are the quoted market prices of the instruments at reporting period.

Cash and Cash Equivalents. The carrying amount reported in the consolidated balance sheets approximates fair value due to the short-term nature of the transactions.

Time Deposits and Short-term Investments. The estimated fair value is based on the discounted value of future cash flows using the prevailing interest rates. The discount rates used range from 1.13% to 1.65% and 1.10% to 2.80% as of December 31, 2011 and 2010, respectively.

Receivables and Advances and Other Receivables included under "Other current assets" account. The net carrying value approximates the fair value due to the short-term maturities. The carrying value of the noncurrent portion of receivables from real estate buyers likewise approximates its fair value.

Receivable from a Related Party and Long-term Notes included under "Other noncurrent assets" account. The estimated fair values of receivable from a related party and long-term notes is based on the discounted value of future cash flows using the prevailing interest rates. Discount rates used for receivable from a related party range from 2.21% to 5.41% aand 1.79% to 2.50% as of December 31, 2011 and 2010, respectively. While the discount rates used for long-term notes range from 2.21% to 5.41% and 1.29% to 5.68% as of December 31, 2011 and 2010, respectively.

Held-to-Maturity Investment. The fair value is based on its quoted market price ranging from 100.85% to 108.21% and 103.75% to 104.10% as of December 31, 2011 and 2010, respectively.

AFS Investments. The fair value of investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business at reporting period. For investment in debt instruments, such as the investments in mandatorily redeemable preferred shares where there is no active market, the fair value is based on the present value of future cash flows discounted at prevailing interest rates. The discount rates used is 4.24% and 3.31% to 4.33% as of December 31, 2011 and 2010, respectively. For unquoted equity securities, these are carried at cost less allowance for impairment loss due to the unpredictable nature of future cash flows and lack of suitable methods for arriving at reliable fair value.

Bank Loans. The carrying value approximates fair value because of recent and regular repricing (i.e., quarterly) based on market conditions.

Accounts Payable and Other Current Liabilities and Dividends Payable. The carrying values reported in the consolidated balance sheets approximate the fair value due to the short-term maturities of these liabilities.

Long-term Debt. Fair value is based on the following:

Debt Type	Fair Value Assumptions
Fixed Rate Loans	Estimated fair value is based on the discounted value of future cash flows using the applicable rates for similar types of loans. Discount rates used range from 2.60% to 6.48% and 1.31% to 5.43% as of December 31, 2011 and 2010, respectively.
Variable Rate Loans	For variable rate loans that re-price every three months, the carrying value approximates the fair value because of recent and regular repricing based on current market rates. For variable rate loans that re-price every six months, the fair value is determined by discounting the principal amount plus the next interest payment amount using the prevailing market rate for the period up to the next repricing date. Discount rates used was 1.98% to 2.70% and 1.94% to 3.55% as of December 31, 2011 and 2010, respectively.

Tenants' Deposits. The estimated fair value is based on the discounted value of future cash flows using the applicable rates. The discount rates used range from 2.97% to 3.67% and 2.31% to 9.19% as of December 31, 2011 and 2010, respectively.

Derivative Assets and Liabilities. The fair values of the interest rate swaps, cross currency swaps, foreign currency call options and non-deliverable forwards are based on quotes obtained from counterparties. The fair value of the options relating to the investment in bonds and issuance of convertible bonds were computed using the indirect method of valuing multiple embedded derivatives. This valuation method compares the fair value of the option-free bond against the fair value of the bond as quoted in the market. The difference of the fair values is assigned as the value of the embedded derivatives.

Fair Value Hierarchy

As at December 31, 2010, the Group held the following financial instruments measured at fair value:

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices in active markets for identical assets or liabilities, except for related embedded derivatives which are either classified as Level 2 or 3 and redeemable preferred shares categorized as AFS investments under Level 2;

Level 2: Those measured using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices);

Level 3: Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following tables shows the Group's financial instruments carried at fair value as of December 31:

During the years ended December 31, 2011 and 2010, there were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements.

The financial instruments classified under Level 3 pertain to the derivative assets arising from options embedded in the investment in convertible bonds and derivative liability arising from the options in the Parent Company's convertible bonds. These were classified under Level 3 because of the credit spreads used as inputs to the fair value calculation of the options which were assessed by the Group as having a significant impact to its fair values.

Shown below is the rollforward analysis of the fair value changes from these financial instruments for the year ended December 31:

	2011	2010
	(In Thousands)	
Balance at beginning of year	**(₱126,631)**	(₱1,810,699)
Fair value of derivatives on settled contracts	**36,279**	1,736,460
Fair value changes	**9,972**	(52,392)
Balance at end of year	**(₱80,380)**	(₱126,631)

The balance at beginning of year includes positive fair value at inception of the option arising from investment in convertible bonds amounting to ₱0.9 million and negative fair value at the beginning of the year of the options arising from the Parent Company's convertible bonds amounting to ₱1,811.6 million. The fair value changes during the year were recognized under "Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives" account in the consolidated statements of income.

To assess the impact of the credit spreads used, the Group performed a sensitivity analysis using an increase (decrease) assumption in the credit spreads, the result of which is shown below:

	Increase (Decrease) in Credit Spread	Net Effect on Fair Values of Option
		(In Thousands)
2011	**100 bps**	**(₱2,278)**
	(100) bps	**2,294**
2010	100 bps	(₱12,934)
	(100) bps	13,156

<u>Derivative Financial Instruments</u>
To address the Group's exposure to market risk for changes in interest rates primarily arising from long-term floating rate debt obligations and manage its foreign exchange risks, the Group entered into various derivative transactions such as cross currency swaps, interest rate swaps, foreign currency call options, non-deliverable forwards and foreign currency range options. These derivative instruments provide economic hedges under the Group's policies but are not designated as accounting hedges. Changes in the fair values of derivative instruments not designated as hedges are recognized immediately in the consolidated statements of income.

Options Arising from Investment in Convertible Bonds. The Parent Company invested in US$ denominated convertible bonds of a public company which it classified as AFS investments. The bonds contain multiple embedded derivatives such as long equity call, short call and long put options and were accounted for as compound derivatives. Such multiple embedded derivatives were bifurcated by the Parent Company from the host bonds on the respective purchase dates of the bonds. The net positive fair value of the options at inception amounted to ₱3.7 million. The long equity call option pertains to the right of the Parent Company to convert the bonds into common shares of the issuer at the conversion price of ₱63.7 per share with a fixed exchange rate of US$1.0 to ₱40.6 until January 31, 2013, subject to cash settlement option on the part of the issuer. The short call option pertains to the right of the issuer to early redeem the bonds on or after February 11, 2010 subject to the conditions stated in the bond agreement. On the other hand, the long put option pertains to the right of the Parent Company to require the issuer to redeem the bonds at the 115.6% on February 11, 2011.

As of December 31, 2010, all embedded derivatives (i.e., conversion option, call option and put option) have nil values.

As of December 31, 2011 and 2010, the net fair value of the options, which is shown under noncurrent asset in the consolidated balance sheets amounted to nil and ₱0.9 million gain, respectively. The Group recognized unrealized marked-to-market gain of ₱36.3 million and loss of ₱0.9 million in 2011 and 2010, respectively, which is reflected under "Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives" account in the consolidated statements of income.

Options Arising from Convertible Bonds. The Parent Company's convertible bonds contain multiple embedded derivatives such as short equity call option, long call option and short put option, which are accounted for as compound derivatives.

Short equity call option pertains to the option of the bondholders to convert the bonds into SMIC's common shares prior to maturity. If a bondholder exercised its conversion option, the Parent Company can choose either to settle the bonds in cash or issue common shares, and such option on the part of the Parent Company is a long call option.

The Bonds are denominated in U.S. dollar while the currency of the underlying asset is denominated in Philippine peso. The contracting parties have fixed the exchange rate at ₱48.37 to US$1. Considering the exposure of the Parent Company, the option was assessed as a short put option. In addition, the bondholder may require the Parent Company to redeem all or some of the Bond at 110.79% of the principal amount on March 19, 2010, and such option is also considered a short put option.

As of December 31, 2011 and 2010, the fair value of the options, which is shown as a noncurrent liability in the consolidated balance sheets, amounted to ₱80.4 million and ₱126.6 million, respectively. The Group recognized unrealized marked-to-market loss nil in 2011 and ₱51.5 million in 2010, which is reflected under "Gain on sale of available-for-sale investments and fair value changes on investments held for trading and derivatives" account in the consolidated statements of income.

Cross Currency Swaps. In 2004, SM Prime entered into floating to fix cross currency swap agreements with an aggregate notional amount of US$70.0 million and weighted average swap rate of ₱56.3 to US$1.0. Under these agreements, SM Prime effectively swaps the principal amount and floating interest of the U.S. dollar-denominated five-year syndicated loan into fixed interest paying Philippine peso-denominated bullet-term loan with semi-annual interest payments up to October 2009 (see Note 20). Fair value changes from these cross currency swaps contracts recognized in the consolidated statements of income amounted to ₱185.2 million in 2009.

Interest Rate Swaps. In 2011, SM Prime entered into US$ interest rate swap agreement with notional amount of US$145 million. Under the agreement, the Parent Company effectively converts the floating rate U.S. dollar-denominated term loan into fixed rate loan with semi-annual payment intervals up to March 21, 2015 (see Note 14). As of December 31, 2011, the floating to fixed interest rate swap has negative fair value of ₱142 million. In 2010, SM Prime entered into two Philippine peso interest rate swap agreements with notional amount of ₱1,000 million each. The combined net cash flows of the two swaps effectively converts the Philippine peso-denominated five-year inverse floating rate notes into floating rate notes with quarterly payment intervals up to June 2015 (see Note 20). As of December 31, 2011 and 2010, these swaps have positive fair values of ₱115.6 million and ₱86.7 million, respectively.

Also in 2010, SM Prime entered into US$ interest rate swap agreement with notional amount of US$40 million. Under the agreement, SM Prime effectively converts the floating rate U.S. dollar-denominated three-year club loan into fixed rate loan with semi-annual payment intervals up to October 28, 2012 (see Note 20). As of December 31, 2010, the floating to fixed interest rate swap has negative fair value of ₱6.4 million. On May 9, 2011, and July 28, 2011, the interest rate swap agreement was preterminated as a result of the prepayment of the underlying loan. Realized losses from the pretermination recognized in the consolidated statements of income amounted to ₱4 million in 2011.

Also in 2010, SM Prime entered into US$ interest rate swap agreement with notional amount of US$20 million. Under the agreement, SM Prime effectively converts the floating rate U.S. dollar-denominated three-year bilateral unsecured loan into fixed rate loan with semi-annual payment intervals up to January 14, 2013 (see Note 20). As of December 31, 2011 and 2010, the floating to fixed interest rate swap has negative fair value of ₱3.2 million and ₱1.9 million, respectively.

Also in 2010, SM Prime entered into US$ interest rate swap agreement with notional amount of US$30 million. Under the agreement, SM Prime effectively converts the floating rate U.S. dollar-denominated five-year bilateral unsecured loan into fixed rate loan with semi-annual payment intervals up to November 30, 2015 (see Note 20). As of December 31, 2010, the floating to fixed interest rate swap has positive fair value of ₱20.0 million.

In 2009, SM Prime entered into US$ interest rate swap agreements with an aggregate notional amount of US$145.0 million. Under these agreements, SM Prime effectively converts the floating rate US$30.0 million two-year bilateral loan, US$90.0 million three-year term loans and US$25.0 million five-year bilateral loan into fixed rate loans with semi-annual payment intervals up to November 2011, May 2012 and November 2013, respectively (see Note 20). SM Prime preterminated the US$30.0 million on November 30, 2010 and the US$90.0 million on May 16, 2011. Fair value changes from the preterminated swap recognized in the consolidated statements of income amounted to ₱6.0 million gain in 2010. As of December 31, 2011 and 2010, the outstanding floating to fixed interest rate swaps have net negative fair values of ₱39.8 million and ₱129.8 million, respectively.

In 2009, SM Prime entered into Philippine peso interest rate swap agreement with a notional amount of ₱750.0 million. Under these agreement, SM Prime effectively converts the floating rate Philippine peso-denominated four-year bullet term loan into fixed rate loan with quarterly payment intervals up to April 2013 (see Note 20). As of December 31, 2010, the floating to fixed interest rate swap has negative fair value of ₱30.6 million. On October 17, 2011, the interest rate swap was predetermined as a result of the prepayment of the underlying loan. The unwinding cost of the predetermined interest rate swap amounted to ₱30.0 million.

In 2008, SM Prime entered into Philippine peso interest swap agreements with an aggregate notional amount of ₱1,000.0 million with repayment of ₱5.0 million every anniversary. Under these agreements, SM Prime effectively swaps the fixed rate Philippine peso-denominated five-year syndicated fixed rate notes into floating rate loans based on PDST-F plus an agreed margin with quarterly payment intervals up to June 2013 (see Note 20). As of December 31, 2010, the fixed to floating interest rate swaps have positive fair values of ₱90.3 million. On March 14, 2011, the interest rate swap was preterminated as a result of the prepayment of the underlying loan. The pretermination resulted to a ₱27.0 million loss recognized in the consolidated statements of income.

In 2004, SM Prime entered into US$ interest rate swap agreements with an aggregate notional amount of US$80.0 million. Under these agreements, SM Prime effectively swaps the floating rate U.S. dollar-denominated five-year syndicated loan into fixed rate loans with semi-annual payment intervals up to October 2009 (see Note 20). As of December 31, 2008, the floating to fixed interest rate swaps have negative fair values of ₱40.6 million. Gain on fair value changes from these interest rate swaps contracts recognized in the consolidated statements of income amounted to ₱40.6 million in 2009.

Foreign Currency Options. In 2010, SM Prime simultaneously entered into two plain vanilla long call currency options and two plain vanilla short put currency options with notional amounts of US$5 million each. SM Prime combines the long call option and the short put option such that the net effect of the two options will be similar to that of a foreign currency range option. If the spot rate is above the strike rate of the long call option, SM Prime, on a net-settlement basis, will buy US$ and sell ₱ at the strike rate of the long call option based on the notional amount. On the other hand, if the spot rate is below the lower strike rate of the short put option, SM Prime, on a net-settlement basis, will buy, US$ and sell ₱ at the strike rate of the short put option based on the notional amount. However, should the spot rate fall within the range of the two strike rates, there will be no settlement between parties as both options would be unfavorable. The average strike rates of the long call and short put currency options are ₱47.41 to US$1.00 and ₱47.36 to US$1.00, respectively. As of December 31, 2010, there are no outstanding currency options as these matured during the year. Net fair value changes from these option contracts recognized in the consolidated statements of income amounted to ₱0.8 million gain in 2010.

In 2009, SM Prime entered into a series of non-deliverable foreign currency range options to buy US$ and sell ₱ with a counterparty at an aggregate notional amount of US$38 million. Under the option contracts, at each expiry date, SM Prime compares the spot rate with the upper and lower strike rates stated in the agreements. If the spot rate is at or above the upper strike rate, SM Prime, on a net-settlement basis, will buy US$ and sell ₱ at the upper strike rate based on the notional amount. On the other hand, if the spot rate is at or below lower strike rate, SM Prime, on a net-settlement basis, will buy, US$ and sell ₱ at the lower strike rate based on the notional amount. However, should the spot rate fall within the range of the two strike rates, there will be no settlement between the parties. As of December 31, 2009, there are no outstanding foreign currency range options as it matured on various dates during the year. The average upper and lower strike rates are ₱49.07 to US$1.00 and ₱49.02 to US$1.00, respectively. Net fair value changes from these option contracts recognized in the consolidated statements of income amounted to ₱6.0 million gain in 2009.

Non-deliverable Forwards. In 2011 and 2010, the Parent Company and SM Prime entered into sell ₱ and buy US$ forward contracts. It entered into sell US$ and buy ₱ with the same aggregate notional amount. The Parent Company and SM Prime recognized derivative asset and derivative liability amounting to ₱43.8 million and ₱1,056.2 million from the outstanding forward contracts as of December 31, 2011 and 2010, respectively.

32. Other Matters

In 1988, the Parent Company acquired the former Baguio Pines Hotel properties from the Development Bank of the Philippines (DBP) through a negotiated sale and purchased the Taal Vista Lodge (the Lodge) from the Taal & Tagaytay Management Corp., the original purchaser of the Lodge from DBP.

Previously, in 1984, certain minority stockholders of Resort Hotel Corp. (RHC), the previous owner of the former Baguio Pines Hotel properties and the Lodge, filed with the Regional Trial Court (RTC) of Makati a derivative suit against the DBP questioning the foreclosure by the DBP of the mortgages of these properties. The Parent Company was impleaded as a party defendant in 1995. The RTC of Makati voided the foreclosure by the DBP on the mortgaged properties and declared the Parent Company a buyer in bad faith.

The DBP and the Parent Company have appealed the RTC's decision to the Court of Appeals. On May 25, 2007, the Court of Appeals issued a decision completely reversing and setting aside the February 13, 2004 decision of the RTC Makati and, consequently, dismissing the said RTC case. The appellees (certain non-controlling stockholders of RHC) filed a Motion for Reconsideration with the Court of Appeals and on November 9, 2007, the Court of Appeals issued a resolution denying the appellees' Motion for Reconsideration. The appellees filed a Petition for Review on Certiorari before the Supreme Court appealing the decision of the Court of Appeals reversing the said decision of the RTC Makati. On December 23, 2009, the Supreme Court rendered a decision decreeing, among others, that the foreclosures of the mortgaged Baguio Pines Hotel and Taal Vista Lodge properties were valid; and on October 24, 2010, the Supreme Court issued a Resolution denying petitioners (certain non-controlling stockholders of RHC) Motion for Reconsideration of the Resolution dated June 21, 2010 denying with finality the separate Motion for Partial Reconsideration filed by Petitioner and DBP since it was treated as a second Motion for Reconsideration, a prohibited pleading under the Rules of Court.

33. Events After Balance Sheet Date

On February 2, 2012, the Company launched and priced its 5-year convertible bonds of US$250 million. The yield to maturity of the bonds is 2.875% per annum, based on 1.625% coupon and a conversion premium of 20%. The Company will use the proceeds of the offering to refinance existing debt and for general corporate purposes.
